

Engineering Ethics

THE HONOR AND INTEGRITY OF AN ENGINEER COMPRISE TWO ELEMENTS. FIRST, HE MUST CONFORM TO ALL THE REQUIREMENTS OF HONESTY AND RESPONSIBILITY WHICH ARE EXPECTED OF THE BEST CITIZENS, REGARDLESS OF OCCUPATION. THESE STANDARDS HAVE BEEN KNOWN FOR AGES. THEY ARE LEARNED IN THE CHURCHES, IN GOOD HOMES, AND BY ASSOCIATION WITH REFINED PEOPLE. THEY IDENTIFY THE HIGH-GRADE, RESPECTABLE MAN.

SECOND, AN ENGINEER MUST MEET THE REQUIREMENTS OF THE SPECIAL ETHICS OF HIS PROFESSION. EVERY PROFESSION HAS A CODE OR STANDARD TO GOVERN THE CONDUCT OF ITS MEMBERS IN MATTERS THAT PERTAIN TO THE PROFESSION, AND WHICH DO NOT CONCERN LAY CITIZENS. HONESTY, JUSTICE, AND COURTESY FORM A MORAL PHILOSOPHY WHICH, ASSOCIATED WITH MUTUAL INTEREST AMONG MEN, CONSTITUTES THE FOUNDATION OF ETHICS. THE ENGINEER SHOULD RECOGNIZE SUCH A STANDARD AS A SET OF DYNAMIC PRINCIPLES GUIDING HIS CONDUCT AND WAY OF LIFE. IT IS HIS RESPONSIBILITY TO SOCIETY TO PRACTICE HIS PROFESSION ACCORDING TO THESE ETHICS.

Dedication

THEODORE GELA '38

During his undergraduate days at the Stute, Professor Gela displayed the qualities which mark his personality and teaching career today. While working to obtain his sheepskin, he was particularly active in all sports and was an outstanding star on the varsity tennis team. These qualities are still very much in evidence as he annually "returns" to menace the varsity in the Alumni Soccer Game and especially to those who may have the misfortune to play a friendly game with him on the tennis courts. It was this athletic interest and personal drive which led his classmates to remember him for his "aggressiveness, perseverance, and willingness to work hard."

Recently he has undertaken the monumental task of channeling the fundamental, theoretical concepts of Stevens juniors into a working knowledge of thermodynamics. Here and as an Associate Professor of Metallurgy, he brings students through the changeover from the ideal relationships to the macroscopic realities of the physical world.

In addition to his friendly and enlightening lectures and his zeal for teaching, it is primarily his devotion to Stevens and his personal interest in and companionship with the Stevens students which we honor today. It is doubtful if any professor cheers at more games, attends more social functions, or has a closer contact with students on a group or individual basis than he.

Thus the Class of '62 is delighted to honor here a dedicated Stevens alumnus, teacher, and friend——THEODORE GELA.

DR. JESS HARRISON DAVIS, President

STEVENS INSTITUTE OF TECHNOLOGY HOBOKEN, NEW JERSEY

OFFICE OF THE PRESIDENT

Gentlemen:

As you read this the Stevens Center will be in full operation. This building may well be a fitting symbol for the Class of 1962 of the Institute's may well be a litting symbol for the Class of 1802 of the institute's dynamic growth during your undergraduate years. It also is a home for the qualified men who will follow in your footsteps to form our student body of the future.

Now you are on the threshold of your professional careers. You can look back on your preparation at Stevens and pride yourself on a job well done. Perhaps you have a feeling for what it means to be educated; perhaps you appreciate that it is a continuous, indeed, a lifetime process.

As Stevens moves forward with its academic, research and other programs, As Stevens moves forward with its academic, research and other programs, we know you will continue to watch us closely. Stevens alumni traditionally remain deeply involved with their Alma Mater.

We in turn will be vitally interested in your activities, for the Institute is judged, quite rightly, by the progress of her alumni. Thus the Stute shares Juageu, quite rightly, by the progress of her adminit. Thus the State snares of you as you make your way in life of you as you make your way in life.

Today, perhaps more than any other time in history, engineers and scientists bear a heavy responsibility. You hold a mighty power in your minds and the future of the world may well depend upon both your professional and moral decisions.

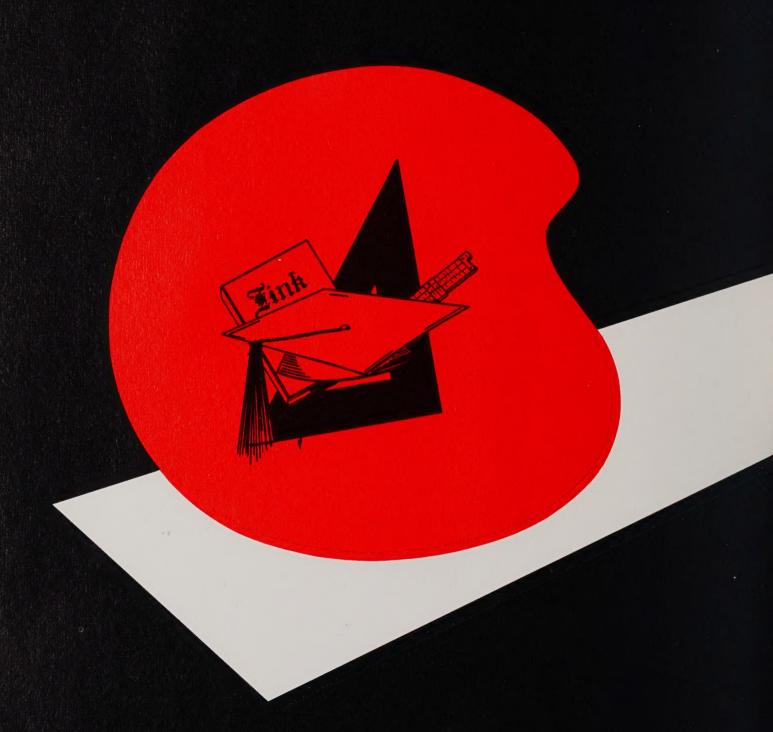

I venture that you feel these have been four years of hard work. But be assured that the years ahead will demand even more from you not only as a professional but also as a member of your community.

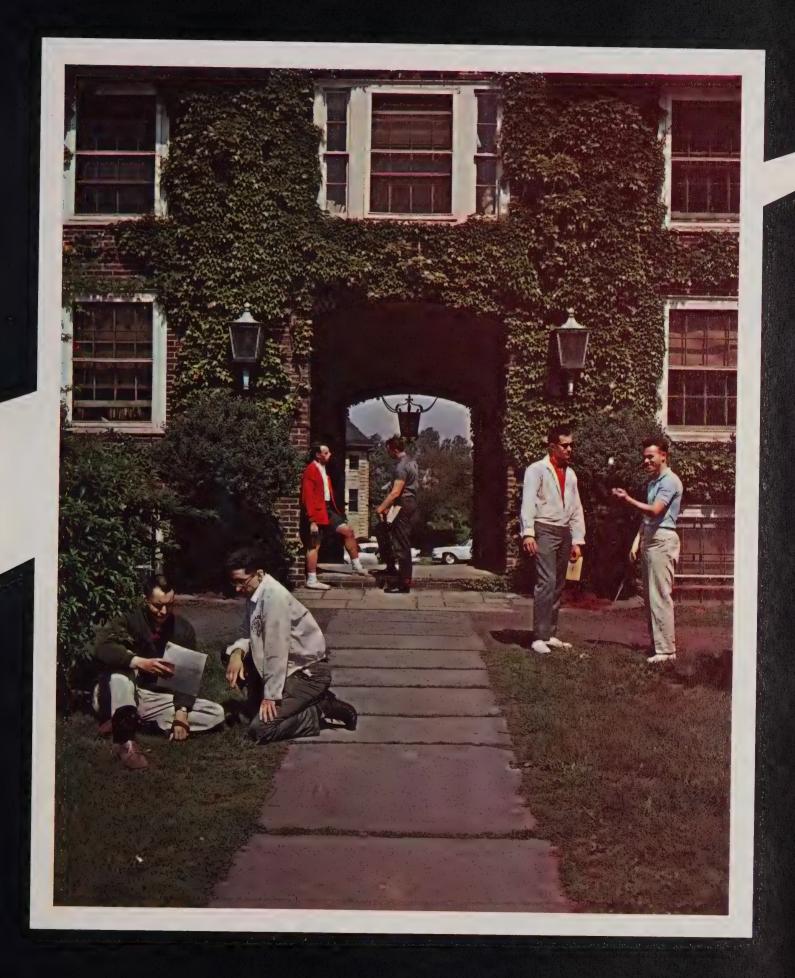

We take pride in knowing you face your task with confidence and imagination. We wish you well.

Sincerely,

President

The Class of 1962

CARL FRANK ANDREN

The Saga of '62

"GOOD MORNING, FROSH!"

Seems quite a way back to that sixth of October in '58 when we first heard those words, the bane of our existence for three days. By that time we were already "snowed" by a week of orientation and then classes. We had also been introduced to a couple of "firsts" besides our slide rule lecturer. At Convocation, which we actually supported that year, President Davis introduced the Unified Science Program and the "E-Building" was opened for its first classes.

"Good Morning, FROSH! . . ."

Two hundred and sixty strong (where are they now?) we attacked the Sophs in force, and as victors of the annual frosh-soph riots were treated to our very first Snevets blast. This activity was made all the more enjoyable by comparison with our dining hall in the Castle Dungeon.

Somehow we took things in stride, though, and by midterms we were sure we could pull all those E's up to C minus's. One of the more "literate" students even dedicated an ode to us in the Stute:

"Drafting, D. G., physics, and hum All seem like a lot of fun. At last, the first hour quiz rolls around, So does your mark, 'cause it's big and round. You've rolled your first quiz, but do not cry, For the Chatterbox is right nearby.

"There is R.O.T.C., and that's really great
(We would have joined, but we own our own raincoat.)
But in time you too will learn to hate
The COLUMN'S LEFT, SQUADS RIGHT'S, HALT, and
DOUBLE TIME.

'Cause Fridays you march in the athletic field slime.

"On hum lectures by the men, Fife, Bowes, and Kasten, At first your rapt attention surely will fasten you. But in time you will find It's better by far to shoot pool than to grind.

"Derivatives and Integrals plague your mind, But do the math profs become lenient and kind? Nay, we say; not those cruel men, Who make you toil with pencil and pen. They pile the work higher each day, Just so they feel that they can say 'My Department's the hardest in this whole place.' (Are they really part of the human race?)

"To the Physics Department, our hat's off to you For not passing anyone, the first time through. Your course is grand, we loved it a lot, But during Summer School it sure did get hot.

"So after attending your classes each week,
Your temperature rises, your condition is weak—
You're ready to leave and go on home,
But then comes the thought that makes you groan:
You got hum to read, physics problems to complete.
And you'd really like to get something decent to eat—
So you forget the studies and run to your car,
And start to ride, so fast, but not far.
For before you know it, you're home once again
With just enough time to shave, shower, and then . . .
You're off to the races—it's Monday again."

By the end of the term, we had been to the First Annual Stevens Nite, taken our first finals, heard our first honor board sentence read, pronged (or more rarely aced) our first course and were well on our way to our first week of rushing.

But the spring terms and summer sessions and fall terms sped after each other in a dizzying procession. We were shocked when the Castle came crashing to the ground, put to sleep by our professors, awed by the length of the lab reports, and disgusted with each year's frosh. We were introduced to the marvels of thermo, "and so we have proved that no gas engine can have a compression ratio higher than 8:1;" the intricacies of EE, "so we write the rook Equations . . .," and the beauty of modern physics, "while the electron cloud spins in the imaginary orbit around the nuclear wave function." A few of the more daring souls entered the Science program, slept all day and went to class at night, while the engineers just slept all day.

Remember that guy in a suit (first one you ever saw on a Stevens man during the week) who tried to break down your door at 8:30, that Wednesday? Remember those two weeks you never saw a morning class, or anything, for that matter? When you couldn't remember your name if it wasn't pinned to your lapel. There was snow and beer and hot men and beer and raunch and beer and songs and beer and a marvelous party on Monday evenings where you passed out at eight o'clock.

We watched the Stevens Center rise ever so slowly and threw the first Senior Ball ever held there. We watched the filling of two new dorms and the demolition of 501 and 509. And finally, that memorable day in June, fifty percent of us became the first Stevens class to graduate in 1962.

"A Scout is Trustworthy, . . ."

Cedric Chandler, Ted Gela, Herb Cook, Bob Busch, Ernest Koenig, John Klug, and Lou Gardella are the men in our Metallurgy Department.

Economics of Engineering

Dr. Arthur Lesser, Jr., Department Head

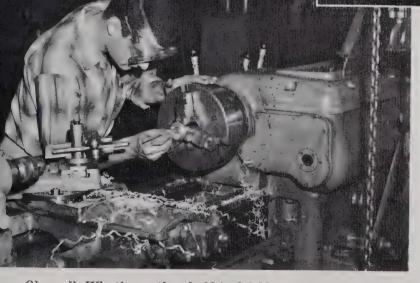

Standing: Allen H. Spinner, Joseph Bonome, David Popkin, Arthur Daou, James M. White. Seated: Samuel C. Williams, Arthur Lesser, Jr., Mrs. Elizabeth J. Mammel, Secretary.

Larry DeFelice, Welding Instructor

Shop Instructors Louis Goldberg and August Toenshoff and Graduate Assistant Robert W.E. Peterson.

Oh, well. What's another half inch? No one will notice anyway.

Dr. Sidney Borg, Department Head

Civil Engineering

Kathy Lausch, Secretary

Included in the Civil Engineering Department are Harold Morrow, Charles Kientzler, P. C. Wang, Sidney Borg, and Joseph Gennaro.

Electrical Engineering

Seated at the table are Edward Peskin, William L. Sullivan, Alfred C. Gilmore, and Harry Phair. Surrounding them are Denis Helm, Velio A. Marsocci, Emil C. Neu, L. Edwin Backer, and Kenneth S. Sohn. Missing from the picture is Paul Chirlian.

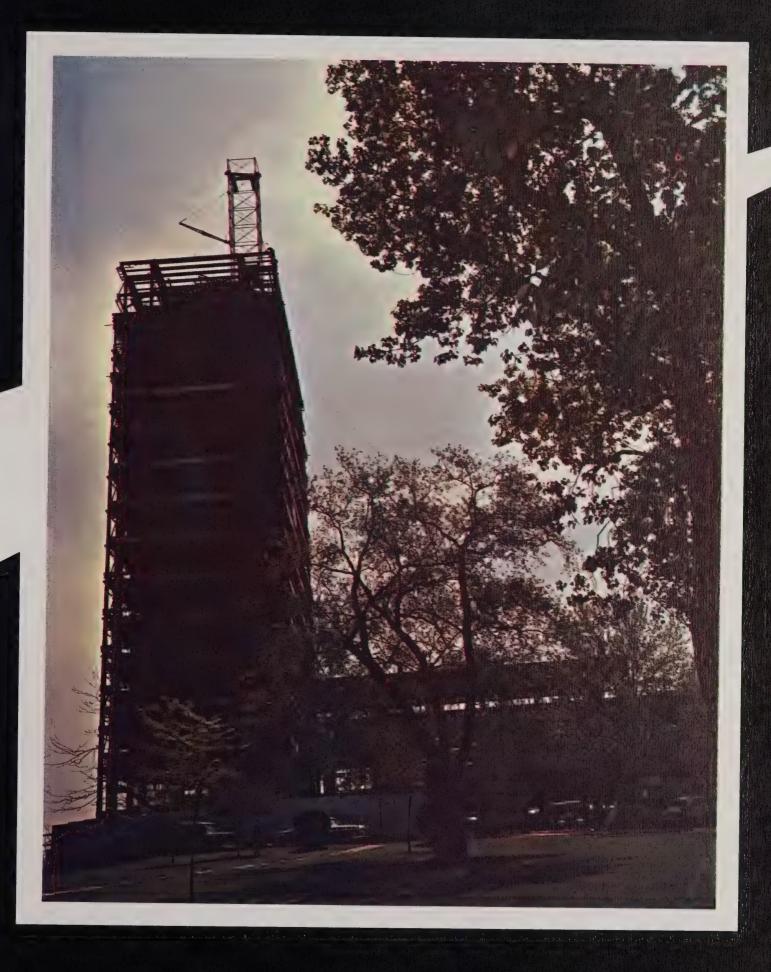

William L. Sullivan, Department Head

Joan Hopf, Secretary

Activities

Khoda was founded in 1909 to unite those members of the Senior Class who, in the opinion of the graduating class, displayed outstanding character and leadership in three years of Stevens life. Membership in the society is limited to twelve men and they must be chosen by unanimous vote.

Khoda is by its nature a secret society. Its principal function is as a liaison between the faculty and administration and the student body. Its work can best be carried out in an atmosphere devoid of public clamor and for this reason few students know of its work for student welfare. Khoda was responsible for the organization of both the Student Council and the Gear and Triangle Society. In recent years, Khoda action led to the establishment of the Interdormitory Council.

Each year as the new freshmen arrive on campus they find the men of Khoda on hand to greet them, help them get settled in the college routine, and answer their questions. As a special part of the orientation week each freshman is interviewed by a Khoda member. From these interviews the society compiles a file of each frosh's interests which is available to all student activities. At other times the members serve as campus guides for prospective freshmen and friends of the Institute.

Khoda

The "young lions" include these members of Khoda: Al Pearson, Dick Leichus, Al McKenzie, Mike Pellet, Jim Kyriazis, Dennis Blahut, Paul Rank, Steve Shulman.

Members of Gear and Triangle include: Dennis Blahut, Ed Post, Jim Kyriazis, Al Pearson, Tom Bentey, Paul Rank, Dick Leichus, John Zupko.

Gear and Triangle

Gear and Triangle is an honorary, non-secret society founded on the principles that Honor, Sincere Fellowship, Spirit and Active Loyalty are essential qualities of the true Stevens man.

Since its inception in 1919 by a handful of undergraduates of the class of 1921, the Society has endeavored to unite the various leaders in college affairs, who are representative of the best standards of American citizenship, that they may act as a unit for the welfare of their college, and by precept and example influence the characters of their fellow students in such a manner as to graduate into professional ranks, the finest type of men.

The purpose of Gear and Triangle is twofold. First, to honor the man who has demonstrated his ability and leadership in extracurricular activities and second, by uniting those leaders, to foster a better and stronger college spirit at Stevens.

The Society taps twice a year—at Winter Carnival and at Spring Sports. Campus leaders in fourth term or higher are eligible to be tapped.

In conjunction with the Dean's Office, the society prepares the Activities Honor List. The society also aids Khoda with Freshman Orientation Week and the Honor Board with its annual Honor Board Convention.

Pi Delta Epsilon

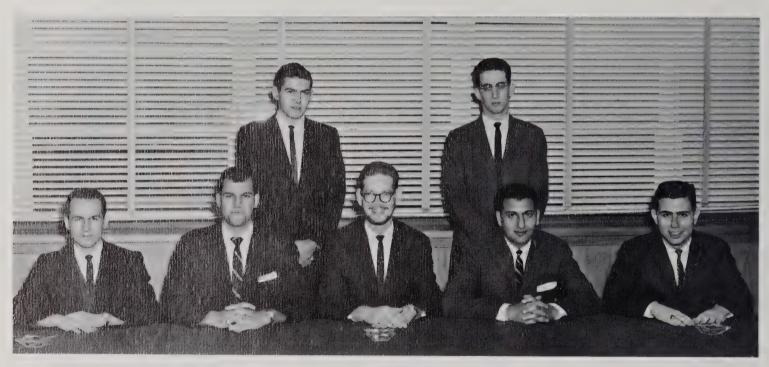

It is the purpose of Pi Delta Epsilon to elevate the cause of journalism, to foster the mutual welfare of student publications, to develop the truest fraternal spirit among its members, to encourage loyalty to their Alma Mater, and to reward the journalists working on the student publications for their efforts, services, and accomplishments by admission to its membership.

These words, written by the founders of Pi Delt in 1922 and committed to memory by every initiate of the fraternity, are the goal for which its members strive. They are put into practice in the supervision of the Stute, Link, Senior Booklet, Events, and the Freshman Handbook. Members are chosen from a cross section of these activities and together try to improve all Stevens publications.

This year Pi Delt was faced with a number of specific problems. The publications space in the new

Stevens Center had to be arranged in the most economical way. Plans of the building were studied, new furniture ordered, and space allocated. A new group of campus humorists sought to reorganize the defunct Events and needed supervision, suggestions, and financial aid. Pi Delt representatives attended a national convention at RPI, and continued to bolster the New Jersey Collegiate Press Association, one of the few state journalistic organizations in the country.

At the two tapping banquets speakers gave the members new ideas in the use of their talents. A smoker was arranged during freshman week to help the frosh become acquainted with Stevens journalism and perhaps the most pleasant task of the society was the organization of the annual contest for the Queen of Spring Sports.

Pictured above are Pi Delta Epsilon members Tom Bentey, Carl Caputo, Hans Kurzik, Al McKenzie, Mike Pellet, Jim Kyriazis, Mike Ioffredo.

Members of Tau Beta Pi seated are Paul Rank, Ray Kent, Joe Gwozdz, Al Kiel; standing are Ed Post and Al McKenzie.

Tau Beta Pi Association

Tau Beta Pi Association was founded at Lehigh University in 1885 to honor the outstanding engineering students at that school. Growth was natural for such an organization and in 1896 the fourth chapter, New Jersey Alphs, was established at Stevens. Over the years the society has gained enormous stature, both from its own merits and the high caliber of men inducted. Its symbol, the Bent, is the most sought after distinction awarded to a fledgling engineer.

"... to mark in a fitting manner those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character ..." reads the constitution, and such has been the society's goal. High marks alone do not insure a man of a place within the ranks, rather unstinting devotion to the total life of the Institute plays an equal part.

Tau Beta's activities have included such services as tutoring for the "snowed" underclassman and the distribution of "hot poop" sheets at finals time. This year Vice President Allen Kiel took off two days from class to travel to Cincinnati and the national convention. Here he took part in a valuable exchange of ideas and returned to campus prepared to lead the society to even greater distinction. In addition, Tau Beta members occasionally visit local high schools as Stevens representatives, to persuade the young "hot men" to follow in their footsteps.

Arnold Air Society

The Charles Lamont Squadron of the Arnold Air Society was founded in the spring of 1951 in memory of Charles Lamont, Stevens '37, who was killed in combat over France in World War II. The purpose of the society is to honor those cadets who are outstanding in the AFROTC program. All advanced cadets and deserving civilians are eligible for membership in the society.

The Arnold Air Society furnishes its members op-

portunities for increased professional development as officers-in-training. It plans and directs the great majority of the extracurricular activities of the cadet corps and assists in counseling freshmen during freshman orientation week. Lectures at local high schools, boy scout troops and other community organizations are given frequently to familiarize the public with the Air Force and the AFROTC program in particular.

Members of Arnold Air Society pictured above are, Front Row: Gunter Gross, Paul Rost, Emmet Barnes, Gerald Stein. Middle Row: William T. O'Hara, Mike Stupinski, Michael Skolnick, Art Epstein. Back Row: Carlton Seeland, Tom Fern, Les Lewandowski, Gabor Nadasdy.

Objectives of the Arnold Air Society:

To promote American citizenship in the aero-space age

To advance support of airpower

To further the purpose, mission, tradition and concept of the United States Air Force for national security

To create a closer, more efficient relationship with the Air Force Reserve Officers' Training Corps.

Members of the Stevens Chapter of Theta Alpha Phi are Jon Peterson, Yelena Petrovna, Carl Mitchell, Mrs. Grace Rettig, Richard Silberglitt. *Missing from the picture is* Norman Morrow.

Theta Alpha Phi

Theta Alpha Phi, the newest honor fraternity on campus, honors those men who have distinguished themselves in the field of dramatics. The Stevens Chapter, New Jersey Alpha, is the only chapter of this national fraternity located at a technical institution.

The purpose of Theta Alpha Phi is "... to increase interest, stimulate creativity, and foster artistic achievement in all of the allied arts and crafts of the theater."

Members of TAP are men taken from the junior and senior years, and who have completed certain basic

requirements and also have demonstrated a strong interest in the Stevens Dramatic Society.

Although it is a separate entity, TAP works closely with the Dramatic Society; its position being that of a troubleshooter, making sure that deadlines are met and offering assistance when trouble arises.

This past year TAP, through arrangements with its member chapters, has brought several one act plays to Stevens; thereby providing more of what Stutemen crave above all else...culture.

Student Council

When a freshman first enters Stevens, one of the first and lasting impressions is that of freedom and individual responsibility for each student. This freedom is manifested in many facets of student government and especially in the Student Council, the Stevens student's highest governing body. Through the Student Council, which reflects the opinions of, and represents all students, the student and the administration communicate on an equal basis. Through direct election the classes choose the men they wish to represent them on the Student Council.

The Student Council normally consists of fourteen members. These fourteen members are the elected president, representatives from the Honor Board, the Interfraternity Council, the Athletic Association, Pi Delta Epsilon and the president and vice president of each class. In addition, special chairmen may be appointed to run certain functions or committees. These special appointees have no vote in regular Student Council proceedings.

In addition to its normal calendar of business, the Student Council finds time to promote social events at this and neighboring schools through its social committee and also promotes events of interest to every Stevens student during the school year. Stevens Nite, the biggest single event of the school year is run by the Student Council. Promotion of a Fine Film Festival was undertaken a few years ago and has become a successful and entertaining addition to the weekly activities at school.

Officers for the past year were: Dennis Blahut, President; Richard Leichus, Vice President; John Schaeber, Treasurer; Richard Cundari, Secretary.

Members of the Student Council shown below are, Seated: R. Cundari, D. Blahut, R. Leichus, J. Schaeber. Standing: P. Rank, J. Schramm, S. Shulman, W. Ringle, E. Post, V. SooHoo, J. Polyniak, T. Bentey.

Members of the Honor Board include, Front Row: P. Rank, W. Habert. Second Row: T. Bentey, R. Dell, P. Janssen. Third Row: G. Foss, J. Graumann, J. Lupi, A. Course.

Honor Board

In a discussion about the Honor Board it might be best to recall the accepted code of honor which must be adhered to and which has become a part of so many Stevens men.

The foremost duty of the Honor Board is to insure the permanency of and abidance of this code.

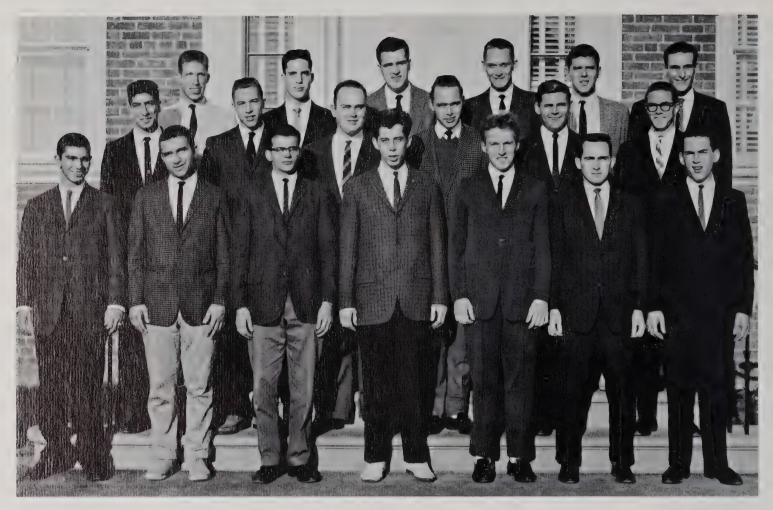

It is in regard to this duty that the Honor Board is like a democratic government. It represents people and has legislative, judicial and executive powers. These powers however are not exclusive, as in a governmental body, just to the Honor Board. They extend to the individual students.

For example the greatest enforcement power lies in the student's obligation to report breeches of the code. The Honor Board, however, has the final deterrent executive power of issuing penalty for such violations. It should be noted that the determination of this penalty is based on the actual situation and what is fairest for the student, student body, and the Honor System—no precedents are presumed to be established.

The legislative powers are also shared with the students. They must pass or reject any modification the Board poses in direct regard to the Honor Board Constitution. Yet the initial evolution and modification lies with the Board and this constitutes its legislative side. Such amendments and changes are not proposed frequently and only when the fulfillment of the basic duty of the Honor Board is jeopardized.

The judicial power is also extended to the student body. The Honor Board determines penalties for the students found guilty of honor violations in a manner discussed elsewhere. First, however, the suspected violator is found guilty or not guilty by means of a trial.

Tasks like educating new students in the code, investigating suspected violations, or coordinating exam seating enable the Honor Board to fulfill its duty. Perhaps more important, this duty permits the Stevens man to learn one of his most valuable lessons.

Members of the Interdormitory Council shown above are, Front Row: P. DiPeri, C. Decina, J. Polyniak, R. Mitchell, O. Stolz, N. Sachs, A. Bentley. Second Row: F. Lastrina, S. Hoagland, J. Schramm, D. Frerichs, J. Nagy, J. Gerber. Third Row: R. Dell, P. Ansbacher, R. Rapak, E. Barnes, E. Orosz, A. Krauter. Camera Shy members include R. Eberhard, B. Marder, D. Williams, D. Sexton, E. Mullowney, S. Cucchiara, J. Coogan, W. Haggerson, and D. Bondan.

Interdormitory Council

The Interdormitory Council is an organization of students whose responsibility is to maintain good study and living conditions in the various resident halls on campus. The regulation of the dorms is based on a spirit of cooperation with the residents so that a good study atmosphere might prevail. The IDC is a further extension of the cherished Stevens tradition of student representation and self-government. It is also a link between the students and the administration concerning this very important phase of college life.

Each dormitory unit is divided into sections, each of which elects a representative. In the freshman dor-

mitory sections, representatives work hand in hand with the senior counsellors. All of these representatives, along with the three officers who are elected from the previous year's organization members, make up the council.

The IDC holds at least one social event during the year, which is designed to extend the social calendar to the dormitory residents and freshmen. An affair is held annually, open to the entire student body, which is based on a play given by the Dramatic Society.

The present officers of the IDC are: Chairman, Joe Polyniak '63; Secretary, John Schramm '62; Treasurer, Jules Nagy '63.

Athletic Council

The Athletic Council conducts the affairs of the Stevens Athletic Association. Four faculty members, including the Director of Athletics and the Dean of Men, represent the Institute. The managers of all varsity sports, an elected representative of each class and the Commissioner of Interclass Sports comprise the Council's undergraduate membership.

Representing the entire student body, the Council is dedicated to maintaining and increasing undergraduate competition in intercollegiate and interclass sports. On behalf of the students, it awards varsity letters and the varsity trophy, senior sports insignia and interclass awards.

Competition during the year in the three man basketball and squash tournaments is conducted by the Council.

The annual Spring Sports Banquet, honoring the members of all major varsity squads, was established four years ago by the Council. This event's success marks it as a highlight of the athletic year.

Officers are John C. Sim, Chairman; Charles Wellhausen, Vice-Chairman; Bill Ringle, Secretary.

Shown below are, William Knowles, Bill Ringle, and Ken Hotz in the front row; Ted Gela, Jack Stamm, Robert Hand, and John Sim in the back row.

The Stute

Stute leaders include, Al McKenzie, Mike Ioffredo, Carl Caputo, and Tom Bentey.

It's Saturday morning. The Stevens freshman awakes, foggy from a four o'clock grind for the day's "Science Hour." The upperclassman mumbles indistinctly about "no more Friday nights." But in the dark morning world of these typical Stutemen there is one ray of light. Today the Stute comes out.

Stevens' campus weekly has been the object of many students' attentions long before it faces the light of day, however. It all starts with a club announcement, a note from the Dean, minutes of a Student Council meeting, a research paper, or an anonymous note placed in an editor's mailbox. It's amplified by a rumor, a rumble of student discontent, or the otherwise undefined "nose for news" that a journalist must develop. It's solidified by a Monday night meeting of the department heads, advertising men, photographers, and the editor. Now the Stute is taking form.

Wednesday afternoon and evening, and well into Thursday morning this activity comes to a focus. The stories are brought in by weary reporters, ads are placed, typists collapse exhausted over their smoking machines. A call goes out for refreshments and the pace is resumed. Copy is rechecked, headlines written, and the paper is put to bed.

Founded 1904

Published weekly by undergraduates of Stevens Institute of Technology, Castle Point, Hoboken, New Jersey, and entered as second class matter at the Post Office at Hoboken, New Jersey.

What is the end result of all this confusion? A paper that has good and bad, but always interesting, issues. It is a source of information on campus life for the lab-locked professor, the struggling student, and the old grad; a source of irritation for the administration and a representative of Stevens; a student sounding board and, if necessary, a molder of student opinion.

The Stute staffers will never forget the missed Thursday classes—or the joy of seeing their handiwork on Saturday. And at least three of the upper echelon will remember some of their best hours at Stevens spent in guiding the Stute safely through another year: Editor-in-Chief Alex McKenzie '62, Business Manager Tom Bentey '63, and Managing Editor Carl Caputo '62.

1962 Link

One of the chief purposes of the Link is to record in some permanent form all the noteworthy elements which make up the life of Stevens students.

Man, being the sentimental animal that he is, delights in reminiscing. What greater aid is there to pleasant retrospection than a Link which is replete with the activities of the busy four years, a Link which is a portion of a chain of memories at Stevens?

In short, our aim has been to please and to stimulate future pleasure. We sincerely hope that the Link will bring as much enjoyment to its readers as it did to the men who worked on it.

Mike Pellet, Editor-in-Chief

While financial and production difficulties hampered the Spring Sports issue, the Events staff came back strong with a successful Winter Carnival edition. In contrast to previous raunch-filled epistles, this year's Events supplied a more subtle college humor in its "Snevets Confidential" expose. Feature articles included highlights of fraternity rushing and "Hobochen" history.

Currently heading up "the best damn college humor magazine in Hoboken" are:

Editor-in-Chief: Tom Fleisher '63 Business Manager: Bill Bambrick '63

Events

Standing: P. Kimball, T. Fleisher, W. Bambrick, M. Pellet, J. Giovannoli, R. Gluck, M. Harris, J. B. Twinem. Seated: A. Schnitzer.

Members of the Press Relations Board include A. Schnitzer, J. Kyriazis, M. Ioffredo, and A. Epstein in the first row; W. Tietjen, H. Kurzik, J. B. Twinem, S. Shulman, A. Pearson, F. Perrotta are in the back row.

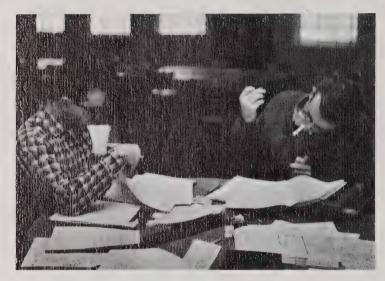

Press Relations Board

The Press Relations Board, an integral segment of the Stute, was founded for the purpose of obtaining more and better sports publicity for the Stevens Sports World. Recently, Press Relations has undertaken the publishing of bi-annual sports brochures disseminating individual and coaches' biographies and overall statistics of our varsity teams. These brochures are distributed to competing colleges and metropolitan newspapers. A Spring Sports program is also published, covering the weekend's activities as well as the winner of Pi Delta Epsilon's annual Spring Sports Queen contest. The Most Valuable Player survey is also spon-

sored by P.R. The most important function of Press Relations, however, is its complete sports coverage of sports events both here at the Stute and away, including box scores, performances of individual players, trends of the games and overall critiques on the results of each event. The majority of all the sports write-ups read in the metropolitan newspapers comes to you through the courtesy of the Press Relations Board.

Present Administrators are: James Kyriazis, Press Manager; James DeCarlo, Sports Manager; Michael Ioffredo, Publications Manager.

"Academic"

Now that we've got this junk spread out all over, let's go to Baylis for coffee . . .

One thing about my IE professor is that he's so dynamic . . .

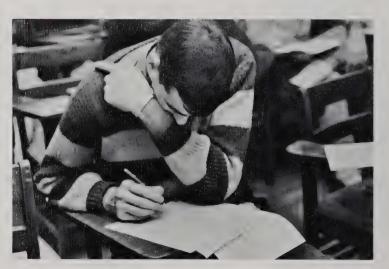

Help send this boy to summer school . . .

Colonel says that next term we're going to try it in step . . .

Tricks of the engineering trade . . .

Don't ask the lackey. He knows less than we do...

As soon as we're done posing for this picture, we can get back to the card game . . .

Activities

This beats Hum lecture any day . . .

You and your lady friend better get out. I want to go to bed \ldots

I don't think it's so funny that you parked your car on my new lawn . . .

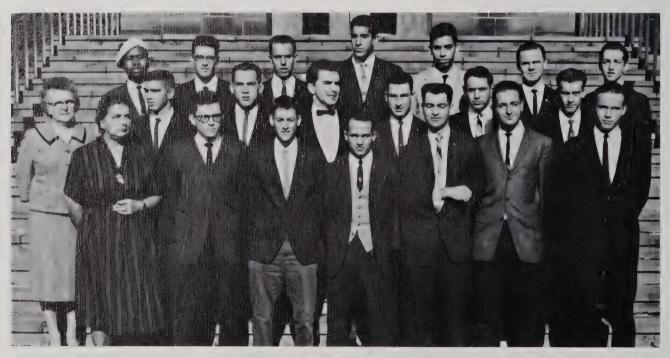

Dramatic Society

The Stevens Dramatic Society, oldest active student organization, presents two plays a year, in addition to the annual presentation of the "The Good Ship Pride of Communipaw Flats," under the capable direction of Miss Yelena Petrovna, a professional drama coach. The scope of the Dramatic Society makes it the most diversified activity on campus. In staging two major productions yearly, the Dramatic Society has need of capable actors, technical crews to handle lighting, sound, props, and costume departments, shop crews to design, construct and paint the sets, and a business office to handle sales and publicity.

Stevens Institute of Technology was honored this year when Theta Alpha Phi, the national honorary dramatic society, held its bi-annual Regional Convention here, on campus. The highlights of the affair was an original one-act play, entitled "Decision", by juniors Norman Morrow, Richard Silberglitt and Peter Marra especially for the convention.

The Dramatic Society Officers are—Row 1: R. Silberglitt, Pres.; T. Bentey, Vice President; Row 2: C. Mitchell, TAP Representative; P. Marra, Pub. Dir.; J. Palladino, Tech. Dir.; P. Greenberg, Business Manager.

The members of the D.S. are, Row 1: Yelena Petrovna, P. Greenberg, R. Silberglitt, T. Bentey, J. Palladino, P. Marra, C. Mitchell. Row 2: P. DiPeri, A. Bentley, T. Kennedy, N. Gant, G. Josephs, F. Jagisch. Row 3: W. Knowles, T. Nozza, M. Aurriga, B. Marder, N. Samurin, J. Peterson, and P. Astor.

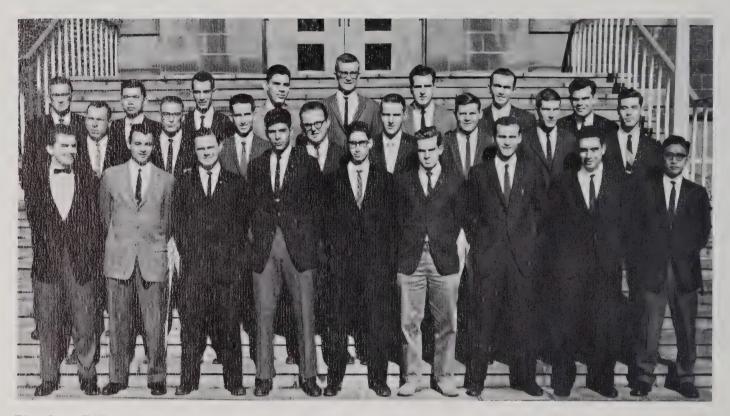

Joe Swyler "visitor to a small planet."

This year the Dramatic Society has followed up its past successes, Stalag 17, Guys and Dolls, No Time for Sergeants, The Ninth Guest, with Visit to a Small Planet. With this play, the Dramatic Society has initiated a new system for set building. Everyone has joined in the construction so that the players will find it easier to feel their parts out and everyone will have a more diversified understanding of all parts of dramatics. The most interesting feature of this play is the vast technical need which is present for there is not only a brilliant presentation of sound and light effects, but also an actual landing and taking off of a flying saucer.

One of the many exciting scenes in the Dramatic Society's latest production, Visit to a Small Planet.

American Society of Mechanical Engineers

First Row: T. Kennedy, R. Sanwald, J. Peterson, J. Feld, A. Bruckner, E. Olsen, R. Lakusiewicz, D. Franconeri, J. Hsu. Second Row: G. Jurick, R. Mitchell, J. McCormick, W. Harmon, A. Cerkanowitz, J. Nagy, P. Kimball, G. Birely. Third Row: W. Smith, K. Lee, T. Fern, G. Palmgren, W. Meincke, R. Rapak, D. Larson, C. Peruzzi. John Lupi, president, is missing from the picture.

The Stevens branch of the American Society of Mechanical Engineers in close coordination with the national ASME attempts to bring to its members ideas and information that cannot be covered in the formal learning process that is carried on in class.

Realizing that the student is taught basic concepts, fundamentals of nature and how nature works, the student branch of the ASME attempts to keep the student abreast of the new developments in the field of mechanical engineering, and also to acquaint him with some of the actual problems that are encountered in the work of a mechanical engineer. This will enable

the student to realize how the basic concepts he is taught can be applied to various problems for their solution.

The method in which the student branch of the ASME does this is by trips to various engineering project sites, speakers who have had experience in the mechanical engineering field, movies of the design and development of various projects and by the literature that is disseminated by the national ASME.

It is hoped that by being a member of the ASME at Stevens, the student will benefit himself and his profession.

Society of Automotive Engineers

The Society of Automotive Engineers is an organization basically involved with vehicle design and standardization of design techniques and material classification. It is represented here at Stevens by individuals whose common interests, primarily in automobiles, draws them together.

After looking into the organization on campus, the student finds that the Metropolitan Section of the SAE regularly schedules talks on topics of interest (most recently Grand Prix automobile design, the Wankel rotary combustion engine and several on aircraft design and performance, American and Russian).

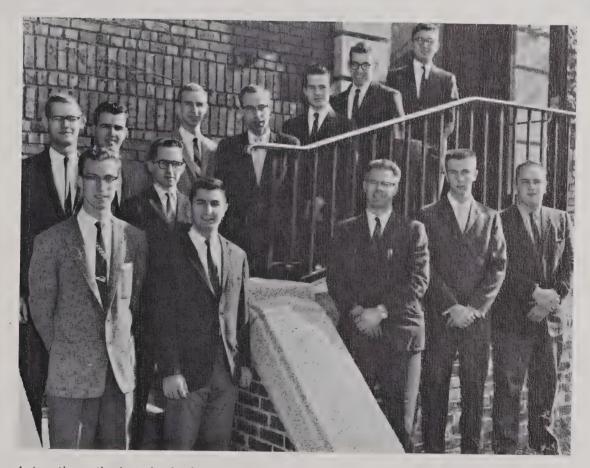

Field trips (Ford's Mahwah assembly plant) and

talks (Mercedes Benz racing activities and Grand Prix car design) have been the most recent outstanding SAE campus activities.

The SAE Journal, a monthly publication, is the best engineering journal published. A library is maintained by the society in New York for ready reference, as well as a collection of papers in the campus SAE office.

The Society of Automotive Engineers also has a student placement service for summer and permanent placement of students and graduate members.

Membership in the student branch is the best introduction to the SAE and is a stepping stone to full membership after graduation.

Automotive enthusiasts in the front row are K. Harms, D. Stigliani, J. Crabtree, W. Fell, and J. Schramm. Those in the back row are K. Thompson (treasurer); R. Rapak, N. Sachs, E. Post, M. Jackson (chairman); E. Olsen (secretary); K. Hotz, and J. Hsu.

AIEE-IRE

The more active members of the AIEE-IRE are: A. Livitasnos, J. Mariner, E. Post, T. Wong, R. Sokalski, L. Capuano, C. Moore, J. Bracigliano, F. Derato, J. Guerriero.

In order to enrich the viewpoint of the Stevens student interested in professional careers in electronics, the joint chapter of the Institute of Radio Engineers and the American Institute of Electrical Engineers was established on this campus. In a continuing program of lectures, demonstrations, field trips and publications, this chapter provides a focal point of interest for students who wish to supplement their electrical engineering courses with news of recent developments in the many areas of electronics, the viewpoints of professionals in the field, and students like themselves.

The Stevens chapter of the AIEE-IRE received the honor in the past year of having the society magazine publish an article on the activities, aims, and accomplishments of the chapter. We are very proud that our organization was picked for this honor.

The chapter is also active in the joint AIEE-IRE Metropolitan Council of chapters from schools in the metropolitan New York area. The council plans programs such as field trips, lectures by renowned speakers and other activities.

Radio Club

Two hams at work.

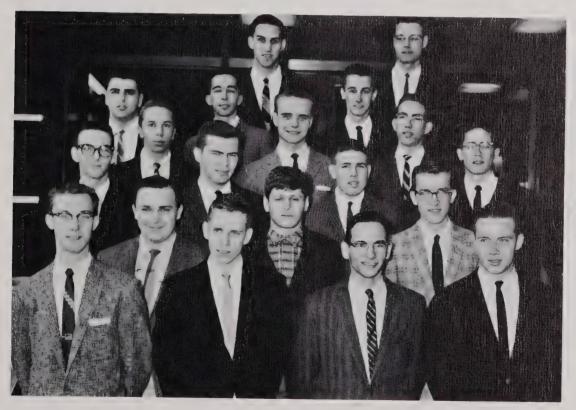

The Stevens Radio Club is one organization on campus that students, parents, and alumni might well be proud of. Within the past five years, the club has progressed from almost being inactive to perhaps one of the best college amateur radio clubs in the nation.

This year the club, owner and operator of radio station W2BSC, was donated two new transmitters, both capable of one kilowatt input, a five hundred watt transmitter, and has also purchased a new receiver. When this equipment is set up in the new Stevens Center, the station will be able to contact other amateur radio stations from all over the world and with

more reliability than ever before.

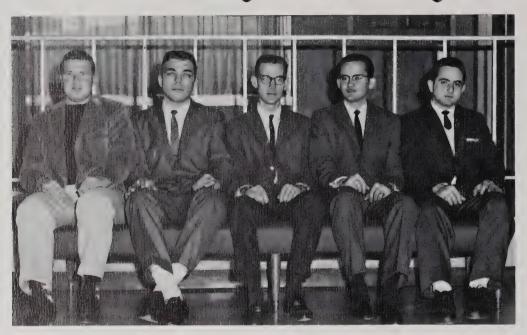

Other activities of the Radio Club include: Code and theory courses, repair and testing of radio equipment, and the continuation of the free radiogram message service. We are also joining forces with the Hersey City Radio Club in order to sponsor a hamfest on the Stevens campus. If this event is successful, it will probably turn into a semi-annual affair.

The Radio Club is comprised of twenty-five members whose officers include: Leslie Cohen, President and Trustee; Robert Mahan, Vice-President; Carl Mitchell, Treasurer; and Ken Harms, Secretary.

First Row: K. Harms, R. Mahan, L. Cohen, C. Mitchell. Second Row: E. Bizub, L. Grunberger, K. Liepins. Third Row: B. Slaski, S. Tomalesky, K. Auerbach, J. Friedman. Fourth Row: J. Stone, G. Quinn, H. Gould. Fifth Row: L. Granowitz, P. Moriarty, L. Arcuri. Sixth Row: B. Friedland, W. Scrivens.

American Society of Civil Engineers

Members of the ASCE are A. Snowden, J. Gwozdz, R. Lidstrom, F. Vital, and R. Kapustin.

Recognizing the need of students to keep abreast of the advancements and applications of engineering in their particular field of interest, the American Society of Civil Engineers Student Chapter was founded at Stevens on October 28, 1958. Through participating in group activities such as movies, seminars, field trips, both as the Stevens Chapter and as a part of the Metropolitan Students Conference, a greater knowledge of of the opportunities opened to the civil engineer in the business, construction and theoretical fields is attained.

The chapter strives to further the professional development of the student through its activities, as by the 1961 Metropolitan Conference, the student members of the Stevens Chapter were brought in contact with professionals in the fields of space technology and national defenses. Not only were the members informed of the CE opportunities; but a connection through which the members became related with the attitudes of these men and their fields.

Our chapter thus provides, with the guidance of our faculty advisor, Professor Borg, the opening of the civil engineering field and a professional relationship that may help the student by opening job opportunities upon graduation.

President—Ray Lidstrom

Vice-President-Secretary—Birol Aygun

ASCE at work.

Stevens Industrial Engineering Society

Today, an engineer's position in the world of industry is of great importance. One of the most vital engineers is the industrial engineer.

The Stevens Industrial Engineering Society was founded in the spring of 1960 for the purpose of aiding those Stevens men who were inclined toward industrial engineering as their occupation. Through the efforts of the recently graduated Pedro Rubi and the Industrial Engineering Department, the Stevens Industrial Engineering Society was put on a sound foundation.

We are proud of the long line of successful industrial engineers who have graduated from Stevens, and

through our program try to insure many more. Mr. Arthur Daou, our faculty advisor, has helped the Society plan a very interesting format demonstrating an industrial engineer's position and his challenges from every viewpoint. Included in the program are a variety of field trips to local industries, with emphasis on material handling, cost control, etc. Seminars have also been planned.

Along with this program, two of our major goals are obtaining Senior 8th Term Industrial Engineering Technical Elective and an on-campus chapter of the National Society of Industrial Engineers.

Listed below are the officers of the Society for the 1961-62 year:

President—Neville Sachs '63 Vice-President—Birol Aygun '63 Secretary—Frank Greco '64

Our future industrial engineers include N. Sachs and F. Greco seated and R. Rapak, C. Perruzza, and J. Feld standing.

First Row: Ken Kempner, George Meyer, Stephen DeMay, Mike Cuviello. Second Row: Bill Hulbig, Richard Pollizzotto, Al Propper, Al Anderson, Martin Jackson. Third Row: Tony Mirabella, Jim Rorke, Richard Rapak, Russ Vanderbeck, Ken Harms.

Institute of Aerospace Sciences

The Institute of Aerospace Sciences is a national organization with branches in many of the engineering colleges. Here at Stevens, our organization is made up of about twenty-five students with an interest in airplanes. The main purpose of the IAS is to build up a thorough knowledge of what goes into the making of a modern airplane. This is accomplished through field trips, movies, and lectures. In the past we have visited such companies as Republic Aviation, Grumman Aircraft, and Reaction Motors, builders of the engine for the famous X-15. We have also planned trips to Sperry Gyroscope and Curtis-Wright. Our field trips are supplemented by movies almost every week. The present IAS officers are Tony Mirabella, Chairman; George Meyer, Vice-Chairman; and Ken Harms, Secretary-Treasurer.

Society of Underwater Engineers

An exciting and interesting club here at Stevens is the Society of Underwater Engineers, known to everyone as the SUE. This club, with a membership of about twenty members, is as dynamic a club as is possible.

During the past year, many new and exciting projects have been launched by the club. The members have gone on many diving expeditions and have become more proficient in the use of underwater diving equipment. Most noteworthy of the trips were the ones on the cabin cruiser owned by Mr. Wilson Crisman and Mr. John Crabtree. Also, the club went on a trip to the Whitestone Quarry in northern New Jersey.

Other projects which the club has undertaken has been the instruction given to beginners in the use of the equipment. This has been carried out in the William Hall Walker Gymnasium pool. When a member is considered properly "schooled" on the techniques of

diving and underwater breathing, the equipment is at his disposal for use in the pool or for private diving during the summer.

In the past year the club also purchased a compressor which gave the club independence from outside concerns on whom SUE has depended for their supply of air for the tanks. This was a big step forward in the projected plan to put diving on a profitable basis by doing salvage work. Some light salvage work is expected to be done by several members during the summer months.

The club, led by officers Art Epstein, president; Carl Caputo, vice-president; Fred Staudinger, secretary; and Joe Giovannoli, treasurer, has had a very successful year and looks for next year to be just as big a success.

Front Row: K. St. Clair, B. Webster, C. Marshall, A. Epstein, F. Staudinger, J. B. Twinem, R. Horn. Second Row: R. Bryan, H. Gibeling, K. Auerbach, N. Stolzenberg, D. Hammond, E. Hand, S. Nozinski, J. Sullivan, P. Shainin, R. Eberhard. Third Row: W. Haggerson, D. Van Buskirk, A. Krauter, A. Smith, J. Harpootlian, D. Vogel, D. Frerichs, R. Ceconi, W. Scrivens, F. Budelman, R. Terry.

Seated members of the Christian Fellowship are, J. Neidhardt, J. Guzzeti, J. Mariner, E. Cummings, D. Roush, C. Seeland, R. Olsen, and L. Wiedlick. Those standing include D. Wu, R. Phillips, W. Sieling, T. Tredinnick, and K. Caulton.

Christian Fellowship

The mind of an engineer or science student is continually searching for the absolute, for truth and reality. The Stevens Christian Fellowship provides an opportunity for students to discover and witness to the reality and power of Jesus Christ in their daily personal lives and to grow in their religious experience. This phase of life, often neglected, is essential to the well-rounded education and personality.

The Stevens Christian Fellowship is chartered by the Inter-Varsity Christian Fellowship of the United States and as such participates in monthly meetings, weekend conferences, and social events with other colleges in the area.

Each Wednesday the club studies Basic Christian Truths with outside speakers on alternate weeks. Discussion is encouraged to bring out individual thoughts and applications of God's word. Morning prayer fellowships are held before classes each day. Once a week in the dormitories Bible studies are held.

The program of the Stevens Christian Fellowship is and will be varied in its outreach. Because of this varied program the club appeals to many students of varied background fulfilling their need for a place to express their religious experience.

Newman Club

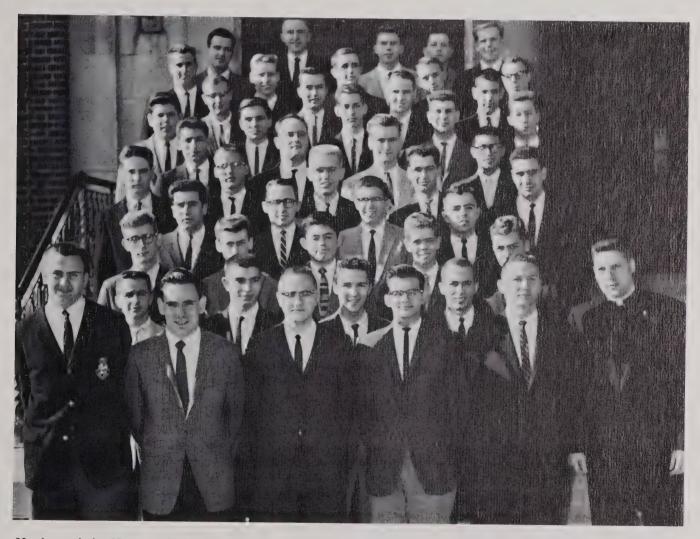

The Newman Club at Stevens serves primarily as a guide for the Catholic student. It is the belief of the Club that a Catholic enrolling in a secular college is obliged to assume the personal responsibility of continuing his spiritual education. The Newman Club attempts to help the student achieve this end.

The Club, under the guidance of its Chaplain, Reverend Charles Herr, provides a well-balanced three-fold program for the student. The variety of activities are of a religious, intellectual, and social character.

The spiritual program consists mainly of Communion Breakfasts and retreats. Films and speakers on such topics as "Religion versus Science", "The

Agnostic", and "Birth Control" have been included in the intellectual program. Members have also been afforded the opportunity of enrolling in the "Newman School of Catholic Thought" program at Seton Hall University to receive more formal and advanced instruction in the principles of their Faith. Socially, of course, there are dances, to which (female) Club members from other schools are often invited.

The benefits offered by the Newman Club are a necessary phase in the life of every Catholic student on the secular Campus. The importance of membership for the Catholic cannot be over-emphasized.

Members of the Newman Club pictured above are, Front Row: L. Lewandowski, J. Reilly, D. Dragolic, J. Polyniak, F. Petrik, Father C. Herr. Second Row: K. Madonia, P. DiPeri, A. Turco, T. Bentey. Third Row: L. Kasperzak, W. Pinkasavage, D. Walsh, E. Boyde, M. Bailik. Fourth Row: A. Masto, N. Sachs, G. Reinhardt, J. Abom. Fifth Row: R. Bryan, G. Stocker, J. Archy, J. Palladino, F. Franconeri. Sixth Row: S. Adik, J. Schramm, G. Lensberg, R. Eng. Seventh Row: D. Curtin, J. Bricker, J. Cogan, N. Sileo, R. Suincak. Eighth Row: C. Larocca, R. Luvrin, A. Cerkanowitz, P. Shainin. Ninth Row: J. Peirano, F. Staudinger, W. Habert, R. Leichus, G. Jurick. Tenth Row: R. Rapak, R. Stomber, J. Rorke, R. Bellars, G. Prans.

The Christian Roundtable

The Christian Roundtable is basically a discussion group, although its activities go beyond discussion. Its aim is neither to indoctrinate students with any particular religious position, nor to mediate and elucidate a certain doctrinal or dogmatic heritage. Rather, the Christian Roundtable exists to stretch the minds and spirits of participants, to open them to life beyond and within the mundane. There is no limit to topics, except that they be interesting and important. Anyone may participate, regardless of his convictions. Atheists, agnostics, members of non-Christian religions, and

members of a variety of Christian denominations are participants.

Some of the more interesting meetings this year have been on Experimental Religion, A Report from Christian Cuba, Psychoanalysis and an Oriental View of Man, A Critical Analysis of the Resurrection, The Meaning of Academic Freedom and Freedom of the Press, Religion and Jazz, and a trip to a Zen Buddhist meeting.

The group is served by its advisor and counselor, the Rev. Ted Smith, Campus Minister.

Members of the Christian Roundtable include S. Beyer, I. Usner, R. Hubner, E. Kallander, J. Segur, R. Wallace.

The Chinese Club

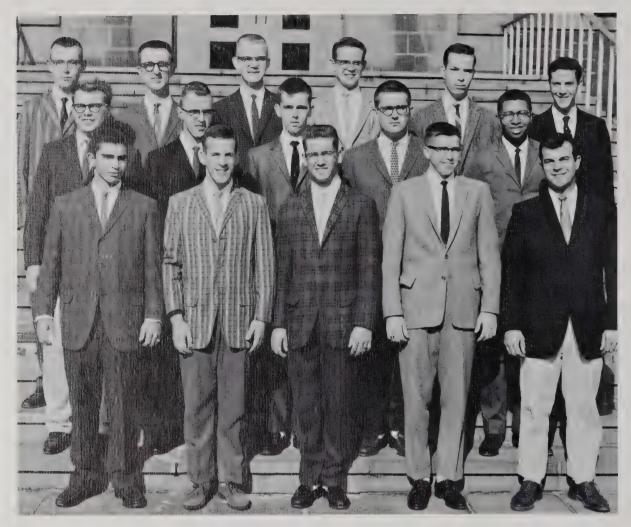

First Row: J. Hsu, R. Boey, Second Row: D. Wu, J. Chuang, T. Uu, F. Choy. Third Row: R. Eng, P. Wu, E. Mo, K.K. Lee, B. Jeng.

The possibility of a new foreign student misunderstanding Western ways may prevent him from enjoying his visit, or doing his best at Stevens.

The main purpose of the Chinese Club is to acquaint new Asian students with the culture, traditions and language of America, so that orientation and adjustment will be easier for him. Small discussion groups form regularly to familiarize new members with the customs and jargon of Stevens life.

Membership is open to all Stevens students interested in sharing their own cultural background with others.

The Stevens Concert Band

The members of the Stevens Band, Row 1: Philip T. Diperi, Leslie D. Zenack, Bruce Lages, Greg Reinhardt, A. Devivo. Row 2: Charles T. Osiecki, Keith Caulton, Ed Cimler, John Wruble, Robert Wallace. Row 3: George Fichter, Robert G. Sokalski, Richard S. Hutton, Karl E. Hoff, James Petke, and Howard Corr.

Since its inception in 1959, the Stevens Concert Band has grown from twenty-five to forty-five members. This amazing growth has resulted from the continuing efforts and foresight of the band's director, Professor Ondrick. The band not only provides the student body with a high quality musical organization, but also offers the instrumentalists at Stevens an opportunity to play in a talented and growing group.

The band's Friday rehearsals afford a period of relaxation and diversion to the musicians on campus. They also provide the members of the band a chance for personal growth in such areas as cooperation, leadership, and expression in group activity. Moreover, the rehearsals serve to prepare the band for its annual presentations at Stevens.

The Concert Band performs publicly at the annual Stevens' Nite and Alumni Day Ceremonies, plus the presentation of its own symphonic concert given during the spring term. These performances not only provide the members of the band several opportunities to display their talents, but also serve to enrich and further culture at Stevens. Thus, the continued growth of the Stevens Concert Band is something to be desired by all.

Director: Professor William F. Ondrick

President: Anthony J. DeVivo '62

Yacht Club

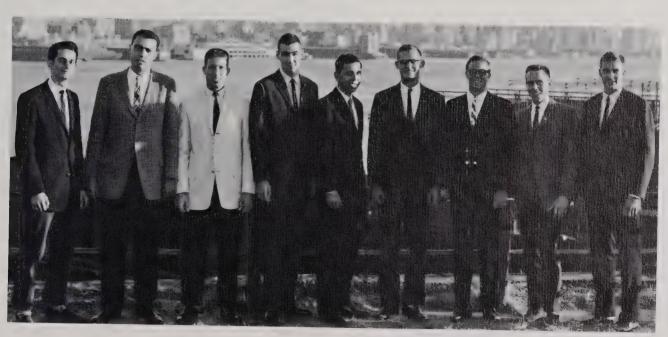

A member of the Mid-Atlantic Intercollegiate Sailing Association, the Stevens Yacht Club provides its members with a pleasant and exciting diversion from the hum-drum study and sleep existence. The club competes regularly in intercollegiate regattas, and last Spring qualified for the Mid-Atlantic championship. The club is presently sailing its five fiberglas dinghies out of the Raritan Yacht Club in Perth Amboy, New Jersey. The members compete in regattas from Boston to Annapolis.

The club sponsors many practice sessions for beginners, at which the more experienced sailors provide excellent instruction. These practice sessions are often attended by girls from other schools' sailing clubs.

Each Summer an elimination race is held to determine who the best skipper in the club is. This man is presented with the Prosser Cup Skippers' Award at Convocation. This year's recipient was Richard Dell '64.

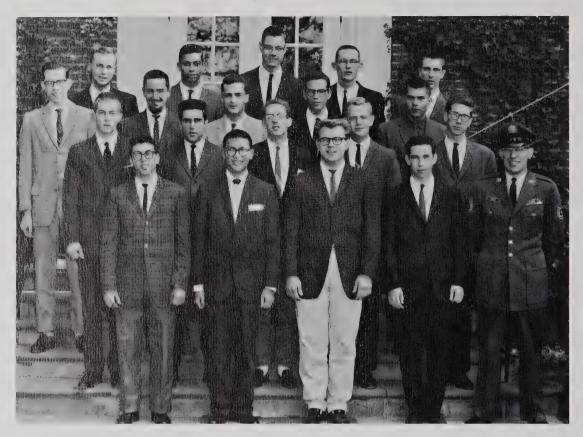

The men responsible for the fine showing of the Yacht Club are: Commodore, Phil Kimball, '62; Vice Commodore, Richard Dell, '64; and Secretary-Treasurer, Don Van Der Wende, '63.

The members of the Yacht Club: Joe Giovannoli, Al Peck, Rich Dell, Don Van Der Wende, Walt Denmead, Ken Thompson, Jeff Gerber, Mark Ganiga, and Phil Kimball.

Rifle Club

Sharpshooters of the Stute include R. Suarez, R. Eng, C. Osiecki, J. Wanpa, and T/Sgt. R. Kuhns in the first row. C. Taylor, A. Masto, R. Elegante, G. Schulze, and J. Hawkins in the second row; J. Fenton, W. Martin, W. Campbell, M. Gornstein, and G. Maraza in the third row; and J. Jackson, N. Samurin, W. Scrivens, F. Unfried, and W. Fell in the fourth row.

A new burst of enthusiasm has turned the rifle club into a functioning team. The mere fact that upperclassmen represent only a fraction of the team hasn't kept the team out of the scoring column.

The team competes with twenty other schools in the area and with these comprise the Metropolitan Intercollegiate Rifle League (MIRL). The League fires smallbore rifles, thirty shots in three positions—prone, kneeling, and standing—for a total of three hundred points per man. Out of the ten man team, which repre-

sents each school, the five highest scores are counted for a final team score of fifteen hundred points.

Stevens has provided a four point range for club use and the Air Force Reserve Officers Training Corps has provided the club with target rifles and ammunition. The students have provided good shooters and the spirit that is necessary to good competition. This combination of mutual cooperation has proved to fulfill the purpose of the club: to provide the interested student with a place to improve his facility in both handling and rifle competition.

The idea for a Stevens Latin-American Club, although an old one among successive "generations" of Spanish-speaking students at Stevens, finally ceased to be a mere speculation and early in November of 1961 the first official meeting took place. Soon a constitution was drawn and officers were elected.

The activities of the club are governed mainly by three committees: the Social, the Scholastic and the Cultural. By means of these the purpose of the club is fulfilled: to promote and stimulate exchange of ideas and points of view between the Latin-American students at Stevens and the rest of the student body; to familiarize incoming Latin-American students with Stevens life; and to provide opportunities for social activities.

It is hoped that the formation of the club will be of excellent use to promote an all around understanding and appreciation of the common heritage in freedom possessed by all the Americas.

Latin-American Stutemen include, Back Row: J. Grijalva, L. DeLarrauri, A. Lorenzoni, R. Manas. Front Row: A. Bello, V. Citarella, R. Kapustin.

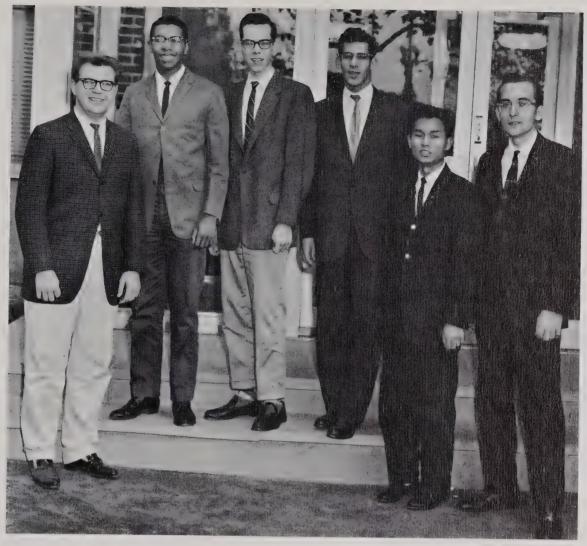

Latin American Club

The Stevens Flying Club was formed and incorporated ten years ago with the goal of making available to the student body a means of obtaining a pilot's license at a reasonably low cost. In order to obtain this goal, the Flying Club purchased an Aeronca 7AC Champ in 1953. The Champ is a two place, dual control light plane and a favorite for training purposes because of its excellent handling qualities.

The club is self-supporting, receiving most of its income from dues and fees charged the members for use of the plane. We are pleased to relate that, since its inception, the club has enabled many Stevens men to introduce themselves to aviation as well as solo and obtain their pilot's license. Although primarily an undergraduate organization the club deems it fitting to extend membership to faculty and alumni also.

Stevens Flying Club

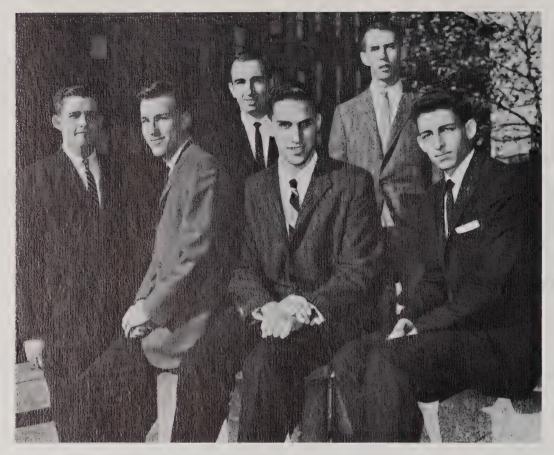

Charles Osiecki, R. Wallace, J. Fenton, W. Proskow, T. Wong, and D. Kalisch.

Chess Club

The encouragement and stimulation in interest in the game of chess is the major purpose of the Chess Club. The club is open to all undergraduates who may have an interest in the game, whether novice or professional. For the inexperienced and aspiring members of the club, a challenge board is set up to provide competition between the members.

The Chess Club also has as one of its major purposes the participation in intercollegiate chess competition. The club is a member of the Metropolitan Chess League, and is playing in the New Jersey Division. Matches have been held against schools such as Princeton, Seton Hall, Farleigh, N. C. E. and St. Peters. Under the leadership of its president, Fred Chaselow, the club expects a successful season in intercollegiate play.

Rail Club

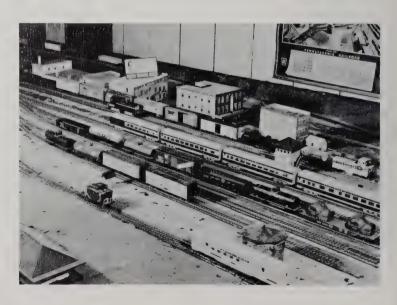

Model railroaders in the front row are Robert Carruth, Van Fehr, Ben Friedland, and Steve Adik; those in the back row are Dave Barabas and Gus Mutter.

The purpose of the Rail Club is to develop further the interests of its members in model railroading. This year saw the club change its quarters from Shippen House because of the demolition of the building. At present the club is located in the Navy Building.

The members of the rail club are in the process of building a new layout containing a one hundred twenty foot double track main line, sixty freight cars, twenty passenger cars and eight locomotives. The completion of the physical work on the new layout is expected next year.

The Rail Club is an active participant in the Metropolitan Council of Model Railroad Clubs.

The officers of the club include: Steve Adik, President; Ben Friedland, Vice-President; and Professor Menig, Advisor.

A portion of the Rail Club's present layout.

Glee Club

1961-1962 was a banner year for the Stevens Glee Club. Under the continual guidance and direction of their director, Professor William F. Ondrick, and with the able assistance of their accompanist, Mr. L. Kenneth Manzer, the Glee Club has progressed in many ways. The year brought an increase in size, improved technique and an expanded concert horizon.

The members applied themselves diligently, and by December had prepared a full Christmas program as well as a good part of their Spring material.

Their first major concert of the season, on Stevens Night, was attended by over one thousand people in the Mott Field House. The varied program, ranging from traditional carols to a modern version of "Jingle Bells" was well received by the audience.

Winter came with its attendant vacations and examinations, but in late February, academic hurdles having been successfully surmounted, the club's long effort began bearing fruit in the Spring concert season.

Long evenings of rehearsal are climaxed by the Glee Club's first concert on Stevens Night, followed closely by a successful series of Spring concerts at various schools.

Members of Alpha Phi Omega include J. Rorke, F. Petrik, and W. Smith in the front row; C. Caputo, J. Bracigliano, R. Gluck, T. Kennedy, and J.B. Twinem in the back row.

Alpha Phi Omega

Alpha Phi Omega is a national service fraternity, composed of members who are or have been affiliated with the Boy Scouts. Theta Alpha, the Stevens chapter, came into being during the fall of 1949. Since then, it has conducted activities and service projects in keeping with the ideals of scouting and of APO.

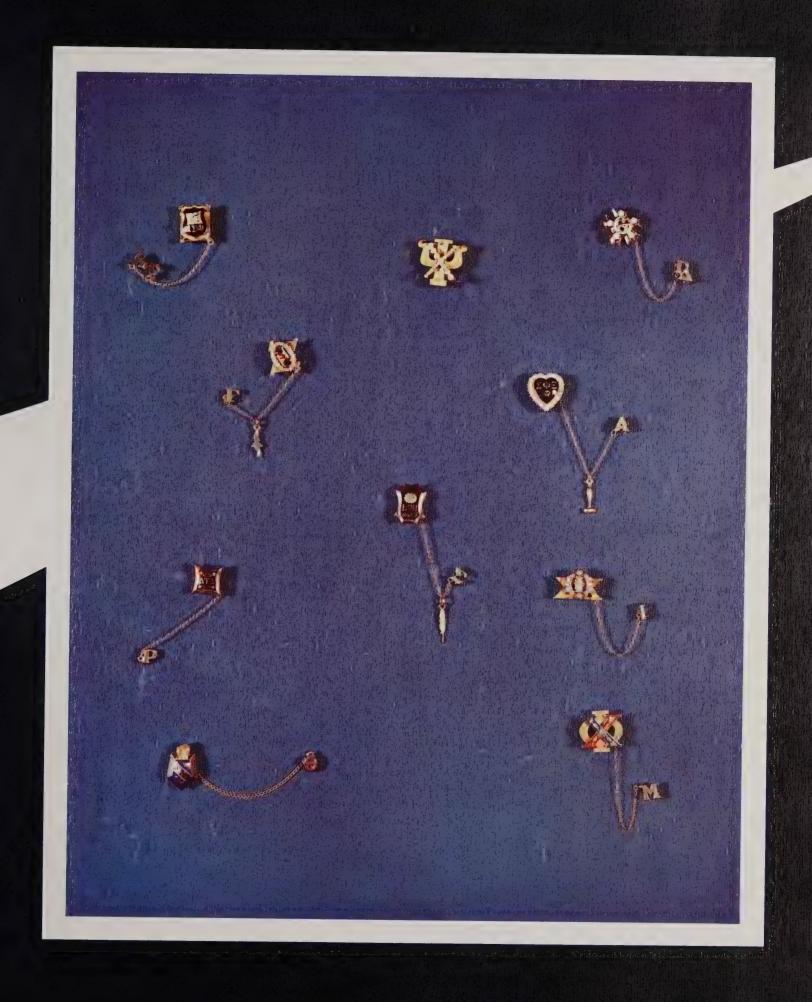

These services include the "Golden Ream Contest," the biggest annual election on campus. The proceeds of this contest are given to charity. APO also maintains a book exchange for the benefit of many students. Members lend their services to many worthwhile campus activities, such as the Stevens Lecture Series and Stevens Night.

Informal meetings are held approximately every two weeks in the APO office on the second floor of the Baylis Building for the purpose of discussing present and future activities.

Fraternities

The Interfraternity Council

Officers
President, Allan Pearson
Vice-President, Rich Leichus
Treasurer, Leonard Course
Secretary, Steve Shulman

The Inter-Fraternity Council, composed of the presidents and representatives of all Stevens fraternities, is the governing body of these groups. Its purpose is to regulate the conduct of each of its members. Providing each house with an opportunity to voice opinions or suggestions, the IFC is instrumental in continuing the advancement of and promoting harmony among fraternity men

The Council is primarily concerned with the establishment and enforcement of rushing rules, the organization of Spring Sports and Winter Carnival weekends, and the scheduling of inter-fraternity athletic competition.

On April 29, Theta Xi completed its ninety-eighth year as a national fraternity. It was ten years after the fraternity's birth at Rensselaer Polytechnic Institute in 1874 that Gamma chapter of Theta Xi was founded at Stevens. Thus, Theta Xi became the first fraternity founded on the Stevens campus and the third chapter of a national that is represented today on fifty-three college campuses throughout the country. Since 1916, the fraternity has been located at 801 Castle Point Terrace.

During its eighty-eighth year the chapter has experienced a very active and prosperous history so that its name has been continually placed among the leading fraternities on campus. During the past years, Gamma Chapter initiated ten men to put the active member-

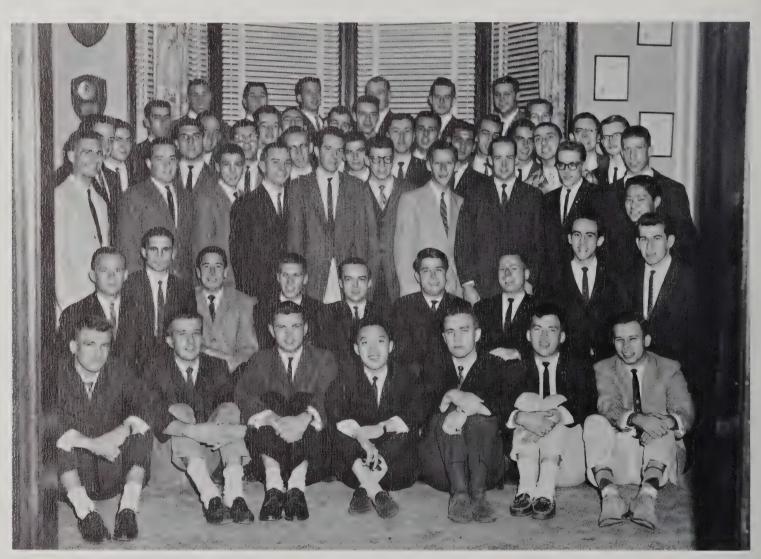

ship at a total of forty-three brothers and eighteen pledges.

The brothers of Theta Xi have always maintained a tradition of active participation in campus activities, student government, and other organizations.

Socially, Theta Xi provided a plentiful opportunity and an atmosphere for relaxation and entertainment. Parties with sororities and nursing schools as well as date parties were scattered over the year while the big weekends, New Year's and the theme parties served as special highlights in the routine lives of the student scientists and engineers.

In I.F.C. competition during the last year Theta Xi walked away with the squash and bowling trophies. Prospects for this year's teams look promising, especially in football, bowling, squash, and softball.

ΔΤΔ

Rho Chapter of Delta Tau Delta became the second fraternity on the Stevens Campus back in 1874. The present Shelter, the first one built in America solely for the purpose of a fraternity was erected in 1907.

Each member of a fraternity should contribute to the betterment of his fraternity and the Delts are no exception. Represented in all aspects of campus activity, Delts hold positions of leadership in student and inter-fraternity government, publications, and numerous clubs.

On the athletic field the Delts have members on every Varsity team and several freshman teams. They also are active in interclass competition. In the fight for the Inter-Fraternity all sports trophy the Delts are usually on top—winning this coveted award eleven times in the past twelve years.

Social life at Rho Chapter is equalled by none. Besides regular Friday night parties, Saturday night date parties accompanied by a swinging combo rock the Stute campus. Theme parties have been better than ever.

But these aspects of Deltism which are necessary are only secondary. Scholarship is the keynote and all Delts strive to attain their grades. The result—second on campus among all ten fraternities in scholarship.

The memories of these four happy years spent at the Shelter, of the big weekends, the great parties and the lasting friendships will always remain in the heart of the Rho Delts.

Officers: Mike Pellet, *House Manager*; Roger Steiner, *Vice-President*; Dick Leichus, *President*; John Zupko, *Treasurer*.

Beta Theta Pi, the sixth oldest national social fraternity, was the first fraternity founded west of the Alleghenies at Miami University, Oxford, Ohio. Sigma chapter was founded at Stevens in 1875 as a part of Alpha Sigma Chi which united with Beta Theta Pi in 1879.

Of recent years, Sigma chapter is on the upswing. With a new revitalized brotherhood and a very active alumni association, such activities as Spring Sports, Winter Carnival, and interfraternity sports have become quite enjoyable and successful as well as other such events as our annual Halloween, Thanksgiving, New Year's and Easter Parties, not to mention our weekly socials.

Parents, too, show an active interest as evidenced by the large participation in the Mother's Club, the Father and Son Day and Parents Day.

Among all these activities, Betas never lose sight of the fact that scholarship is more important than anything else. As a national group, Betas rank third in scholarship achievement among all fraternities. On a local level the awarding of the scholarship ring gives added incentive to the brothers to win high honors in scholastic areas.

Betas take particular enjoyment in filling out the ranks of such organizations as the Glee Club, varsity sports, publications, and the engineering societies. But after all work and activities are over, the most enjoyable moments are those when the brotherhood is working together whether on the Christmas display, planning rushing and initiation or just sitting around singing together. These are the moments Betas treasure.

ΧΨ

Officers: Jim Von Frank, Recording Secretary; Steve Shulman, President; Manuel Calvache, Treasurer; Bob Dailey, Corresponding Secretary.

Chi Psi, eighth oldest national fraternity, founded Alpha Xi at Stevens in 1883. Chi Psi then became the fifth fraternity on the Stevens Campus. Xi acquired a home in 1884, being the first fraternity on the campus to do so. In 1952 the present Lodge at 804 Castle Point Terrace was purchased.

Chi Psi has continued to maintain its leadership in the campus activities. You can find Chi Psi's on the starting team of every major sport and most of the minor ones. The honor societies and the various publications all include Chi Psi's in their membership. With all this, the scholarship of the fraternity has not fallen, as witnessed by our being first on campus last term.

The Parents Club, a very active organization, has held several successful affairs this year, with the Christmas Party serving as a popular distraction from studies. In the way of services, the club has done much to keep the Lodge running smoothly.

Socially, this year has been great. The two main activities, Spring Sports and Winter Carnival highlighted the season. With two "Chi Psi" weekends, numerous date parties, and active participation in school sponsored affairs, the Lodge has had more than its share of good times through the year.

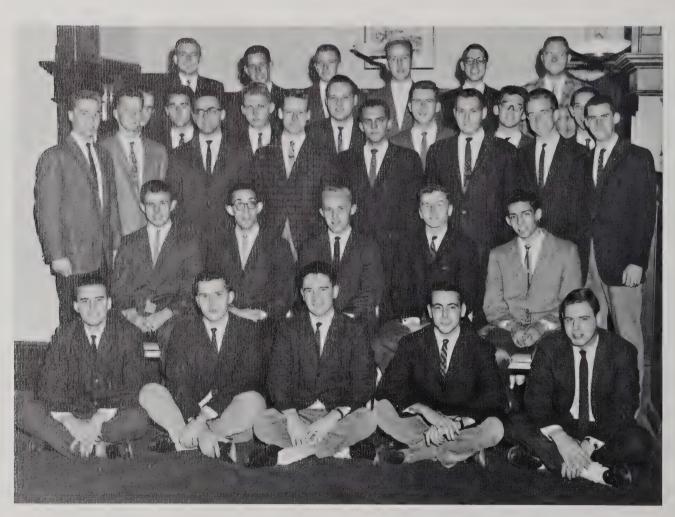

The men pledged last year and just recently initiated were exceptional, and the Lodge is looking forward to another outstanding year with its position on campus secure.

The Chi Phi Fraternity was founded at Princeton in 1824, thus making it the oldest national social fraternity in existence. There are now thirty-two active chapters at some of the more prominent colleges and universities in the country. Mu Chapter was founded at Stevens in 1883, and acquired its present home in 1914.

Mu owes its present position of dignity, honor, and leadership to its policy of initiating men of varied interests and abilities. Chi Phi is ably represented in most of the activities on campus, with many of the brothers holding office. Among Mu's other assets are a strong National, an interested and active Mothers Club and Alumni Association, and the full cooperation of the members in all chapter undertakings.

Socially, Chi Phi is second to no one. That Mu has extremely successful parties is evidenced by the attendance of alumni from as far away as Virginia. And I'm sure no one will forget the terrific Winter Carnival and Spring Sports weekends they have attended. Chi Phi—older than all, greater than ever.

ΦΣΚ

This year, 1961, was one of merit for Phi Sigma Kappa. The men of Iota Chapter were active in all phases of campus life; scholastic, athletic and social.

As the Redshirts engaged in campus activities they were motivated by the Three Cardinal Principles of Phi Sigma Kappa; Development of Character, Promotion of Brotherhood and Stimulation of Scholarship. These principles are the backbone of Phi Sigma Kappa Fraternity.

In the field of scholarship, the individual talent of Brothers was put to use in extra-help sessions for both Pledges and Brothers with the result that the Brothers placed second among the fraternities during the Spring of 1961.

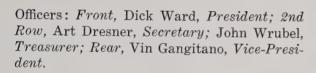

Iota was a leader in campus extra-curricular activities also. Richard Sard and Frank Perotta were co-

captains of the Lacrosse and Baseball teams respectively. Dennis Blahut was President of the Student Council and Allan Pearson was Chairman of the Interfraternity Council. Pearson, Blahut and James Kyriazis represented 40% of Khoda, the Senior Honor Society. Mike Iofreddo, Secretary of Pi Delta Epsilon, was a leader in campus publications.

Iota retained its reputation as the leading social house on campus with the Pilgrim Party, Halloween Party, Winter Carnival and Spring Sports Weekends, helping to put some spice into the daily grind of the men of P.S.K.

In retrospect, the year was filled with memories which the members of Phi Sigma Kappa will carry with them for years to come.

ΣΝ

On January 1, 1869 Sigma Nu fraternity was founded at Virginia Military Institute. Since then it has grown to be one of the largest college fraternities in the country with 128 chapters. Gamma Delta, founded on February 3, 1900, was the fifty-second chapter to be granted a charter. The purpose of Sigma Nu is to provide a medium of fellowship by promoting social, intellectual and character development.

For Sigma Nu the past year brought many improvements. In addition to our regular social rooms there have been added a commuter room, a dining room, a cocktail lounge, and fresh new coats of paint in the hall and in many of the rooms.

Socially, the past year was highlighted by the Winter Carnival and Spring Sports weekends. However, there were other social events at Sigma Nu also, including several unforgettable theme parties.

When we of Gamma Delta finally leave Stevens, we can hope to recall many fond and personal memories of our life at Sigma Nu. Our close fraternal ties, our spirited athletic teams, the fun at our socials, our fraternity trips — all these and many other memories of our fraternity life shall never be forgotten, but most of all we shall value and revere our friendships that will last forever made at Sigma Nu.

Front Row: Stu Trooskin, Tony Rosati, Bill Stenger, Al Toth, Carl Benson, Bob Brown, Bob Riena. Top Row: Orestes Tarajano, Russ Hoag, John Peirano, Ed Yurgosky, Dick Frankovic, Bill Schiel, Bohdan Kobzar, Joe Pollaro, Frank Vitale.

Officers: Bill Stenger, Recorder; Al Toth, President; Carl Benson, Vice-President; Joe Pollaro, Treasurer.

Front Row: Al Vautier, Bob Van Der Wall, James England, Stan Hartman, Barry Hoyt. Second Row: Bob Cameron, Don Nelson, Joe Viravec, Bob Reale. Top Row: John Anderson, Richard Milos, Fred Talasco, Howard Hudson, Don Schott.

ΣΦΕ

Sigma Phi Epsilon, founded in 1901 at Richmond College, Richmond, Virginia, has grown in the relatively short period since then to become a leader in the fraternity world both in numbers and ideals. Now the second largest fraternity in the world with over one hundred and fifty chapters spread across the nation and a total membership of over sixty-two thousand. Sigma Phi Epsilon, in keeping with its fundamental conception of true Christian brotherhood, places high value on personal worth and dignity.

New Jersey Alpha of Sigma Phi Epsilon came to the Stevens campus in 1938 through the absorption of Theta Upsilon Omega. Here at "Tech", Sig Ep strives to complement the education received in the classroom by emphasizing the intellectual and social development of the individual.

Although one of the smaller houses on campus, Sig Ep has managed to rejuvenate its chapter at Stevens socially, spiritually, and materially. The new initiates and pledges have assisted in renovating the physical plant by painting and repairing inside and out and in helping to launch new or revised plans for the present year.

A closer family atmosphere has been added since the acquisition of a devoted housemother, Mrs. George P. Rettig, who is known to the brotherhood as Aunt Grace. She has made the fraternity house a second home for Sig Eps, serving excellent meals from her kitchen as well as giving unstintingly of her time for the betterment of the fraternity.

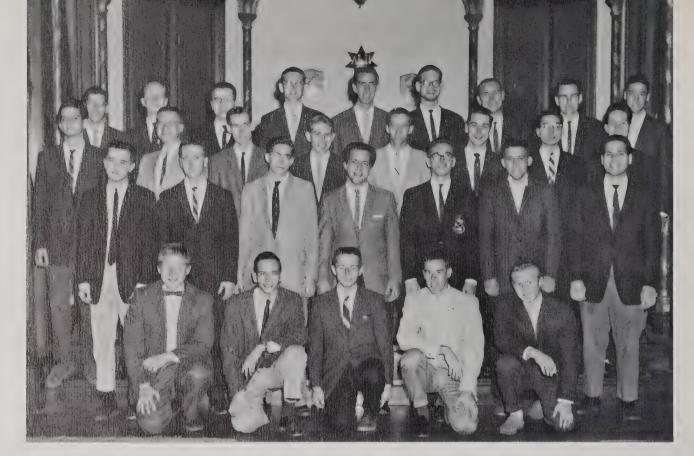

Officers: Robert Van Der Wall, Vice-President; Allan Vautier, President; Donald Schott, Comptroller; Robert Reale, Historian; Absent: Frederick Talasco, Secretary.

Front Row: Jon Beveridge, Les Cohen, Fred Chaslow, Rich Moesch, Bob Blume. Second Row: Steve Richards, Bob Riedell, Lou Huber, Tom McKimm, Allan Barry, Bob Dobrowolski, Ben Tirabassi. ΑΣΦ

Alpha Sigma Phi fraternity was founded at Yale University on December 6, 1845, thus ranking as the tenth oldest national social fraternity. Alpha Tau Chapter was originally established at Stevens in 1926 as a chapter of Alpha Kappa Pi fraternity.

Alpha Tau became a chapter of Alpha Sigma Phi when the two national fraternities joined in a bond of friendship and good will in 1946. Alpha Sigma Phi is one of the strongest national fraternities and has eighty-two undergraduate chapters in leading colleges and universities throughout the United States.

The Chapter here at Stevens is perhaps one of the most tightly bonded fraternities on campus and is second to none in spirit. The social season is one of the fullest with a good representation of Alpha Sigs at every social function, school or fraternal. Alpha Tau is also well represented on campus with active membership in various organizations, societies, and sports. Emphasis on sportsmanship and participation for all gives the true meaning to brotherhood that is evident in every Alpha Sig.

These past years have left many memories in the hearts of the Alpha Sigs. Among many pleasant memories this year were the new pool room, the Halloween party, the tree trimming, and the Winter Carnival display.

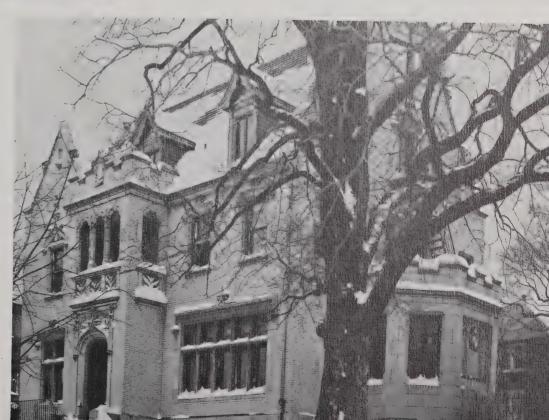

These are the men and the memories of Alpha Sigma Phi.

Officers: Louis Huber, Secretary; William Scholp, Treasurer; Al Kiel, President; William Proscow, Vice-President.

ΠΛΦ

The year 1895 saw the first Pi Lam house come into being on the Yale University campus. Since 1916, when Pi Lambda Phi founded Theta Chapter here at Stevens, the house has been actived in all phases of college life from varsity sports to dramatics and student government. In the past year, Pi Lam athletic teams have been consistently near the top in I.F.C. competition.

The house has distinguished itself with men in all major activities and by ranking third among the ten fraternities at Stevens.

Socially, this year has been a tremendous success. Spring Sports centered around a jailbreak theme. The party room was transformed into a corner of Alcatraz where the inmates dressed to suit the occasion. As usual, the house rocked on Friday nites with the winning combo of beer and band.

Pi Lam social life took on a different aspect when our parents came together for the first time under the roof of our new house during Parent's Day.

Tied in unity and strength, the brotherhood of Pi Lambda Phi is looking forward to another successful year.

Front Row: Frank Jagish, Ray Ketchledge, John Palladino, Steve Reichman, Peter Astor, Bob Benz. Second Row: Bob Sacks, Bob Thierfelder, Pete Nowak, Dick Orth, Joel Schwartz. Third Row: Jack McCormick, Jim Ostrander, Harmon Aronson, Boris Momiroff, John MacMillan, Art Fisher, Gene Josephs. Fourth Row: Ron Venturi, George Steiner, Paul Raftery, Jeff Feld, Jack Sherry, John Wirth, Jim Doggett. Top Row: Bob Biondi, Phil Greenberg, Harry Hajinlian, John Geer, Richard Silberglitt, Niles Gant.

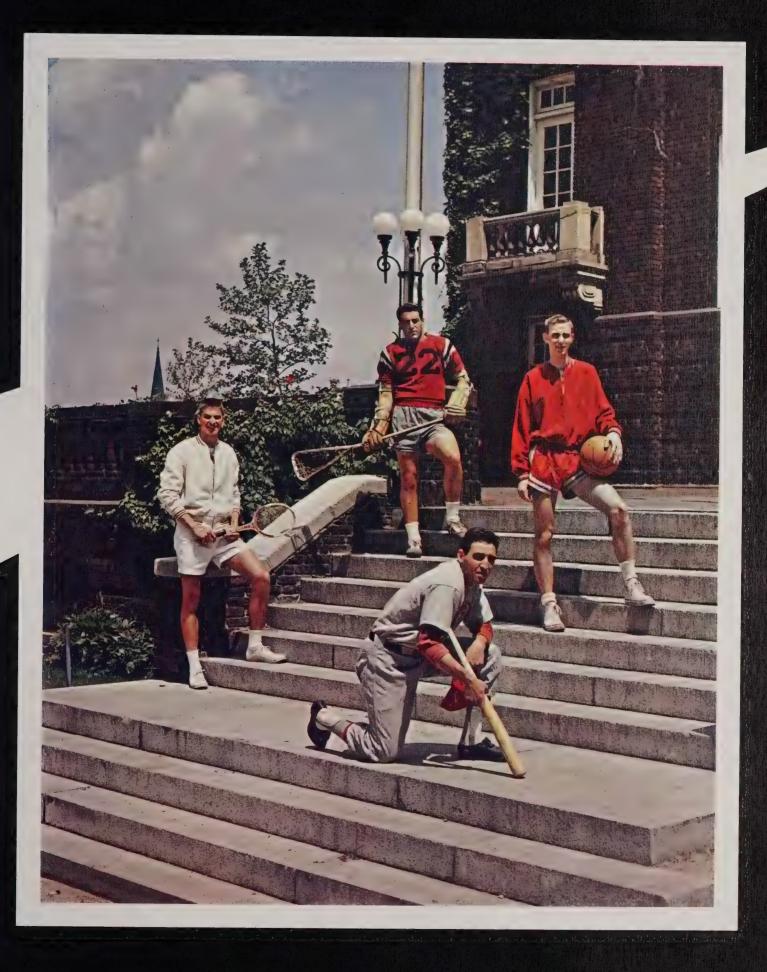

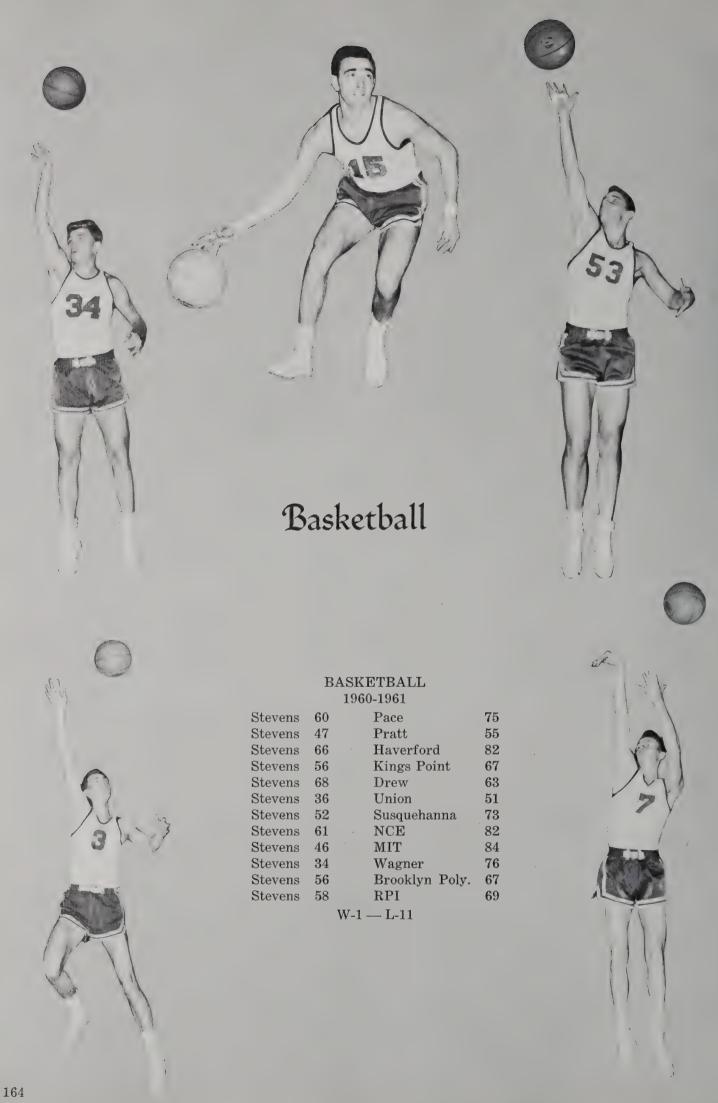

Officers: Gene Josephs, Vice-President; Joel Schwartz, President; Dick Orth, Treasurer; John Palladino, Secretary.

Shorts

1961-62 Varsity Basketball team—Bottom Row: Bill Chereb, Don Baxter, Co-captain Ron Venturi, Co-captain Ed Post, Bob Severinson, Ron Marold. Top Row: Coach Frank Partel, Bill Weldon, Jeff Ryan, Tony Ippolitto, Ray Horn.

Coach Frank Partel's 1960-1961 varsity basketball team suffered perhaps its most drastic season when only 5 of the varsity men returned to the lineup.

The team was lead by highly talented Stan Lattoz, averaging 15 points per game, Jim Sutton, tallest members of the team at 6'-4", junior Ed Post and sophomore Ron Venturi.

The future looks promising for the Stevens team, however. With 10 lettermen returning and players such as John Allegra, Bob Severinson, and Don Baxter joining the team after a fine freshman season, Coach Partel should be looking towards a victorious year.

Squash

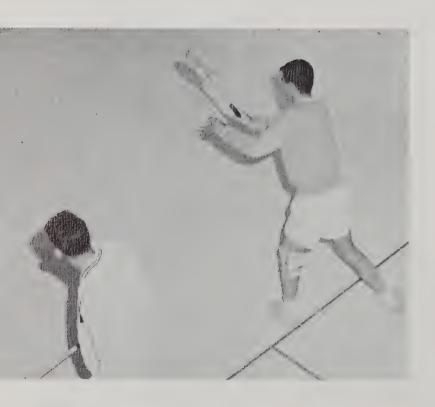

The 1960-1961 squash season saw the Stevens team behind Charlie Collins tie with Fordham in the annual Metropolitan Intercollegiate Squash Racquet Tournament sponsored each year by Stevens. Captain Collins took individual honors in the tournament. The squashmen took second place in league competition, bowing to a strong Adelphi squad, and finished the season with a 4-2 league record and a 6-4 overall record.

Coached by Frank Fernandez, the relatively inexperienced team made an excellent showing in every match played, though taking it hard on the chin from overpowering Navy and U. of Penna. teams in out-of-league play.

Again this year diplomas hurt the team, but with returning lettermen Orestes Tarajano, Walter Sieling, Steve Shulman, Dom Isola and new additions from all classes, the team should be well rounded and have another successful year.

1961-62 Varsity Squash team—Bottom Row: Bob Mitchell, Walt Sieling, Steve Shulman, Jeff Heend. Top Row: John Geer, Dom Isola, Don Allen, Al Frieze, and Coach Buzz Seymour.

Soccer

The 1961 soccer season at Stevens got off to a fast start and maintained its winning ways throughout the season. Hard aggressive play was exemplified by that of the five returning senior lettermen—Manny Augenstein, Rick Mattesich, Bob Mitchell, Gus Spiradellis, and Al Van Helden.

Coach Jim Singer had molded a defense that was very instrumental in the team's winning record. Led by Co-Captain Tony Santos's outstanding play in the goal and sophomore John Nussbaumer's ability to break up plays, the defense was solid. Attacking Co-Captain Gus Spiradellis helped provide the offensive drive that won games for the Stute.

Baseball

In his first year at the helm of the Stute nine, Coach Jim Singer compiled the best Stevens baseball record, 9-3, since 1958. The team was composed of juniors and sophomores with Al Smith, the captain, the only senior. The team, which Coach Singer did not predict would have a winning season, got off to a good start by winning its first two games of the season. These games were marked by many errors by both teams and showed the lack of experience of the players. After a heartbreaking one-run loss to Pace, the Stute bounced back by winning their next two. Another one-run game was lost to Union, but the Stute righted itself the next day by besting Hamilton. Following their final loss to Wagner, the only shutout against the Stute, which scored a total of 105 runs in their other eleven games, the Singermen took their next four games in a row to complete a 9-3 season. What the Singermen lacked in depth they made up for in their terrific play and tremendous spirit. Next year's team should be even stronger with the loss of only one man and the gain of many of last year's freshmen. The Stute should look forward to a very successful baseball season this year.

Gupko smashes one.

Lacrosse

After graduation and final exams had taken their respective tolls, lacrosse coach "Buzz" Seymour was left with only a handful of returning lettermen with which to form a team.

So with the majority of the squad composed of inexperienced players, most of the time was spent in learning lacrosse instead of scoring goals.

Swarthmore, who had beaten Stevens for the past 14 years, turned out to be the highlight game of the season. The Stutemen, led by their able captain Pete Zimmerman, emerged with a thrilling 7-6 victory in overtime. Zimmy had a great day as he scored 5 of his seasons' 29 goals that afternoon with 3 of them unassisted and in overtime.

Future prospects are very hopeful, since this year's team, under the leadership of co-captains Dick Sard and Dick Leichus, will have strength and experience necessary for victory.

The Stevens fencing team went on to its fifth consecutive winning season under the guidance of Coach Cliff Kirmss. Under the leadership of Co-captains Al Bublick and Angelo DeVito the team compiled a nine and three record. This was accomplished by a team which had only four of its starting members from the previous year on the squad. The team won the league championship and went undefeated in league competition. The Middle Atlantic States Three Weapon Fencing Championship was captured by the Stevens fencing team for the fourth consecutive year, breaking their own record. In addition, the team also finished sixteenth in the National Collegiate Athletic Association Championships.

Those members of the team which had more than a satisfactory season are foilmen Angelo DeVito (31-3) and Frank Choy (24-5), epeeman Emmet Wallach (20-12) and saberman Tony DeVivo (20-5).

Although the team has been weakened by graduations, prospects for the coming season under the leadership of the new captain, Frank Choy, look bright.

Tennis

Despite the loss of five of its first six men of the 1960 team, Coach Frank Partel's 1961 Varsity Tennis team experienced a successful season. The squad consisted of seniors Jack Stamm, Captain Charlie Collins, Lee Jacobi, Ted Vladimiroff, and juniors John Zupko, John Dobson, Robin Harvey and Ray Kent. Coming up from the 1960 freshman team were Manuel Calvache, Dick Evans, and Otto Stolz. The season was filled with close matches, heart-breaking losses, and stunning upsets. Most instrumental in keeping the Stute in competition was the steady play of Vladimiroff and Harvey, and the all-around brilliance of Charlie Collins. It will be a long time before another racquetman of Collins' class appears at Stevens, but Coach Partel is optimistic about the 1962 season, with Captain-Elect John Zupko, Robin Harvey, and Manuel Calvache heading an experienced returning squad.

John Dobson, playing doubles with Collins, slams one over the net.

Captain Charlie Collins smoothly backhands the ball.

John Zupko drives a hard serve at his opponent.

Junior Bruce Boyce (L) and sophomore Dick Gales taking practice swings in preparation for upcoming season.

Golf

In the 1961 season, the Stevens golf team rolled up an impressive record of four victories in eight matches for one of the team's finest seasons. Playing against local colleges such as St. Peters, Wagner, St. Johns, and Queens, the Stutemen were aided by their familiarity with their championship home course, Rivervale, and by the battle-wise experience of four seniors.

The prospect for the spring of 1962 looks good. with the return of parshooting sophomore Bill Weldon and junior Bruce Boyce and the addition of a half-dozen men from the classes of '64 and '65. A projected starting lineup averaging in the low and middle eighties is aiming the squad toward its first undefeated season.

Bowling

The Bowling Team represents Stevens in the New Jersey Division of the Eastern Intercollegiate Bowling Conference. In past years Stevens has had mediocre team standings, but the 1960-1961 team surprised everyone. Under the leadership of Captain Dick Meincke, it remained in contention for the league lead until the final weeks of the season, when it dropped its last two matches.

In addition to Captain Meincke, the team consisted of Tom Bordigan, the team's most consistent bowler, who finished with the high average; Ken Hotz, the clutch bowler; Bill Musser, elected captain for the 62-63 season; and Vinnie Jelm, a freshman. The entire starting lineup will be returning to bowl against other teams hurt by graduation. Because of this and their improved abilities, Stevens is expected to be one of the league's top teams.

Members of the 1961-62 Stevens Bowling Team are: Bill Musser, Dick Miencke, Ken Hotz, Vinnie Jelm, and Bob Dailey.

Interclass

With visions of Class numerals an enthused Frosh class turned out for Interclass Sports in the Fall of 1958. The rigors of competition soon forced a reevaluation of that bid for domination but then and since, '62 has exemplified the ideal of Interclass competition: maximum participation in friendly competition while developing a keen sense of sportsmanship and class spirit.

Fall and Winter slipped by with '62 taking no higher than third place in anything. Two new contests were introduced that spring and we attacked each with vigor. The fledglings led by Ken Hotz, our A. A. Rep., managed a triple overtime tie with the seniors in soccer and emerged cochamps. Our first crack at the gym meet gave us a close second place.

Sophomore year saw Lacrosse added to the fall list bringing the Interclass program to its present format of three sports and one meet per season. '62 was back to lay claim to those elusive class numerals. Stute write-ups featured the now legendary phrases, Lupi to Perotta and Lupi to Canfield, as aerials moved us to a 5-1 record in football. We fought the seniors to a 0-0 tie in the playoff but lost in overtime. The Sophs were the only class to beat the Seniors in volleyball, but forfeits placed us third. And to round out the season, we placed second to the Senior Lacrosse team despite hard play by Leichus and Sard. No amount of work in Winter Sports seemed able to change our luck as we maintained our bridesmaid role through Squash, Badminton, and the Swim Meet. Not to be outdone, the spring squads added handball and the Gym Meet to the list. It was deuces up as we finished second in the plaque race our second year.

Following the graduation of the class of '60, the fall season opened with clear sailing for the new Juniors. With the defense, McCabe, Lewandowski, Traynor and all, scoring more points than it allowed, the Junior colossus rolled to an undefeated regular football season and those long awaited numerals. Proving that what a fat man can do, a lanky one can do almost as well, Meincke, Zupko and Post led their Volleyballers to a champion-ship with 16 of 18 wins. Unfortunately the Lacrosse boys forfeited two of three.

Now there seemed to be an inspired rush for those class digits with Boey dropping back a year to pick up his along with Hsu, Guidera, and the rest of the Birdie men. Missing his in Lacrosse, Sard jumped to Squash. The group took on all comers dropping only 4 of 30. Mitchell, Oringer, and Kowenhoven picked up their prizes with Willie obtaining his second set. A strong bid by our roundball artists to get into the act was whistled dead by the sophs and we finished second.

Spring brought an apparent turn to other interests, for the best we could master was a tie for second in the shortened softball season, with forfeits again placing us down the line in Soccer and Handball.

It was a fine year for '62. The plaque in the Gym now wears our mark after three hectic years. We serve notice of our intention to repeat this year with spirit and drive personified in three plus years. '62 Can Do It!

Green frosh get set to feel the sting of the championship senior football team.

Members of the championship interclass volleyball team are: Phil Kimball, Frank Petrik, Hans Kurzik, Len Course, John Zupko, Dick Meincke, and Ed Post, all of the Class of 1962.

Interclass football champs are: Dick Orth, Bruce Sangster, Norm Choy, Les Lewandowski, Al Snowden, Bill Kowenhoven, Jim Driver, Ken Hotz, Frank Perrotta, Jim Kyriazis, Jim Canfield, John Lupi, Jeff Heend, Gene Josephs, Steve Letavish. Bob Traynor, and Joel McCabe.

Stutemen get to use their water wings at interclass swim meet.

<u>Jour</u> Yearbook Is In Distinguished Company

Some of the Fine College and High School Yearbooks Produced by Baker, Jones, Hausauer, Inc.

It's always wise to "look" at the company they keep when selecting a yearbook publisher. That's one of the reasons your staff selected Baker, Jones, Hausauer to produce your yearbook. BJH is nationally recognized as an outstanding producer of yearbooks. We have earned this reputation in the development of a unique "package" program that puts all responsibility for art, engraving, printing, (by letterpress or offset) and binding in one place—this means your staff is freed from production details and so can spend more time on editorial creation. The fine yearbook in your hands shows how the "package plan" works to everyone's advantage.
